**The Routledge Companion to Corporate Social Responsibility** Thomas Maak, Nicola Pless, Marc Orlitzky, Sukhbir Sandhu, 2021-08-25 While the concept and domain of Corporate Social Responsibility CSR are not new its beginnings can be tracked back to the 1960s its scope urgency and relevance have shifted dramatically in recent years CEO responses show that the majority of business leaders understand that they operate in an environment of contested values and that stakeholders expect companies to do better and more However many corporate incentive systems are not in sync with societal norms and expectations Moreover grand challenges such as climate change and global pandemics and growing interconnectedness shed light on the fault lines of value creation

through complex supply chain systems exposing unacceptable working conditions modern slavery and the environmental consequences of highly distributed production at any cost As a consequence corporate social responsibility has become a widely accepted common denominator of the role and responsibilities of business in society ranging from core functions such as health safety and environment standards to governance and recognition of stakeholders supply chain design and corporations stand on climate change and its responsibility to future generations This volume assembles state of the art scholarship from leading scholars in the field and enables a full range view of CSR from its roots normative foundations and institutional perspectives to matters of stakeholding the global value chain social innovation and future directions The Routledge Companion to Corporate Social Responsibility represents a prestige reference work providing an overview of the subject area of CSR for academics researchers postgraduate students as well as reflective practitioners

**Congressional Record** United States. Congress, 2017-10-24      **Awakening to China's Rise** Hugo Meijer, 2022-08-01 Awakening to China's Rise provides the most comprehensive analysis to date of how Europe's major powers have responded to the re emergence of China as a great power in world politics since the end of the Cold War To do so it puts forward a unique cross regional comparison of how the major European powers France Germany and the United Kingdom have confronted Chinese assertiveness both in the Asia Pacific and in Europe Firstly it analyses their response to China's increasingly muscular regional posture in the Asia Pacific through the development of diplomatic and security initiatives with partners in the region Secondly it delineates how they have confronted China's inroads into Europe looking at the measures that they have taken to tackle Chinese investments in and supply of technologies in strategic sectors such as critical national infrastructures dual use technologies and in the digital domain including Huawei's 5G networks A longstanding assumption in the IR literature has been that European foreign policies toward the People's Republic of China have been driven by a naive and self interested focus on the economic opportunities presented by such a vast market overlooking security considerations This book challenges such common belief through a detailed examination of the policies of France Germany and the United Kingdom from 1989 to the present Its central argument is that whereas this assessment aptly characterized the first two post Cold War decades Beijing's growing assertiveness after 2009 caused the three major European powers to awaken to China's rise In the 2010s heightened threat perceptions of China coupled with increasingly competitive bilateral economic relations with the PRC have gradually and cumulatively caused the hardening of their policy goals which in turn translated into the formulation of new policy instruments to confront such a challenge To substantiate this argument the book relies on a large body of previously undisclosed primary sources including 223 interviews conducted with senior officials in Europe Berlin Brussels London Paris in the United States Washington DC and in Asia Beijing Shanghai New Delhi Seoul declassified archival documents from France the UK and Germany leaked US diplomatic cables and new data on European naval deployments
