Greek Endgame Nicos Christodoulakis, 2015-10-20 The book explores in depth both the origins of the Greek debt crisis and the conditions under which the economy might be turned around from its current malaise Greek debt turned explosive after the 2008 global crisis through a combination of a fiscal spree and domestic policy complacency but the unpreparedness and indecision of the European Union intensified the problem of liquidity and a massive bail out agreement became inevitable However the stringencies of the adjustment program led to more recession and unemployment while social tension and political polarization became entrenched In 2015 a radical Left party Syriza ascended to power on a ticket to end austerity and renegotiate Greece's debt agreements but a long lasting growth and reform agenda is still to be settled upon This book lays out some key reforms that would allow Greece to return to growth and at the same time keep the Euro an option that still remains a cornerstone for the country's economic and geopolitical stability

Handbook on Resilience of Socio-Technical Systems Matthias Ruth, Stefan Goessling-Reisemann, 2019. The goal to improve the resilience of social systems, communities and their economies is increasingly adopted by decision makers. This unique and comprehensive Handbook focuses on the interdependencies of these social systems and the technologies that support them. Special attention is given to the ways in which resilience is conceptualized by different disciplines, how resilience may be assessed and how resilience strategies are implemented. Case illustrations are presented throughout to aid understanding.

Ruling Ideas Cornel Ban, 2016. Why do some countries governed by moderate neoliberalism while others by a radical one? Looking at Spain and Romania, the book points to the role of local intellectual traditions, the strength of international alternatives, the resources of the local advocates of neoliberalism and their vulnerability to external coercion.

The Non-Aligned Movement and the Cold War Natasa Miskovic, Harald Fischer-Tiné, Nada Boskovska, 2014-04-16. The idea of non alignment and peaceful coexistence was not new when Yugoslavia hosted the Belgrade Summit of the Non Aligned in September 1961. Freedom activists from the colonies in Asia, Africa and South America had been discussing such issues for decades already but this long lasting context is usually forgotten in political and historical assessments of the Non Aligned Movement. This book puts the Non Aligned Movement into its wider historical context and sheds light on the long term connections and entanglements of the Afro Asian world. It assembles scholars from differing fields of research such as Asian Studies, Eastern European and Southeast European History, Cold War Studies, Middle Eastern Studies and International Relations. In doing so, this volume looks back to the ideological beginnings of the concept of peaceful coexistence at the time of the anticolonial movements and at the multi faceted challenges of foreign policy the former freedom fighters faced when they established their own decolonized states. It analyses the crucial role Yugoslav president Tito played in his determination to keep his country out of the blocs and finally examines the main achievement of the Non Aligned Movement to give subordinate states of formerly subaltern peoples a voice in the international system. An innovative look at the Non Aligned Movement with a strong historical component, the book will be of great interest to academics working in the field of International Affairs, international history of the 20th century, the Cold War, Race Relations as well as scholars interested in Asian, African and Eastern European history.
