Sherpa Hospitality as a Cure for Frostbite Mark Horrell, 2021-12-01 The heroic story of how Sherpas stood up and took control of their destiny Ever since Europeans started exploring the world's highest mountains and trying to reach their summits in the early 20th century Sherpas have been an integral part of mountaineering expeditions to the Himalayas In this anthology curated from his popular Footsteps on the Mountain blog Mark Horrell explores the evolution of Sherpa mountaineers from the porters of early expeditions to the superstar climbers of the present day Writing with trademark warmth and humour he starts by bringing to life the Sherpa characters of the early days describing their customs and superstitions and putting their contributions and achievements into context In the deeply personal second section of the book he covers some of the conflicts of the 21st century when a series of high profile controversies highlighted the tensions between Sherpas and western climbers on Everest He was a witness to a devastating avalanche in the Khumbu Icefall that killed 16 Nepali mountain workers and led to a labour dispute and he describes the events that followed from a commercial client's perspective In the final section of the book he brings the story up to date and looks to the future as Sherpas have moved out of the limelight of westerners running successful mountaineering expedition companies and becoming celebrated climbers in their own right It's uncommon to come across stories that look beneath the surface to investigate deeper issues while remaining accessible and humorous Sherpa Hospitality achieves this Alex Roddie [A New English Dictionary on Historical Principles](#) James Augustus Henry Murray, Henry Bradley, Sir William Alexander Craigie, Charles Talbut Onions, 1901

Cold and Frost Injuries — Rewarming Damages Biological, Angiological, and Clinical Aspects H. Killian, 2012-12-06 This first manuscript on cold injuries was written in the period 1945-1946 as the result of personal experience gained in the winter months of the years 1941-1943 on the Northern Front in Russia and subsequent experimental work at the Chirurgische Universitätsklinik in Breslau Wrocław between 1943 and 1945 The intention at the time of writing was to present a summary of our experiences so that they might serve as a basis for further scientific and clinical work The manuscript has continually been revised and brought up to date For purely external reasons publication has been delayed until today Our experience of cold preservation and of increased resistance to oxygen deficiency in chilled tissue acquired during the winter periods of the Second World War in Russia served as a basis for the development of local cryoanesthesia and hibernation which retroactively furthered to a considerable degree our knowledge of cold and frost injuries See my monograph on the biology and clinical treatment of the cold injury and general loss of temperature which appeared separately in 1966 and discusses all biological changes A comprehensive report on cold injuries was written in English in 1952 at the instigation of Captain A R Behnke jr USA MC not available commercially **Wilderness Medicine E-Book** Paul S.
