SAFETY CHECK-OUT

After correcting the original problem, perform the following safety check before return the product to the customer.

1. Check the area of unit input for short-circuit or poorly soldered connections. Check the video board surface for water spatters and damage.

2. Check the shortest wiring to ensure there are no "ground" or contact high voltage isolation.

3. Look for disconnection replacement parts, particularly transistors, that were installed during a previous repair. Check back with the customer and recommend best replacement.

4. Look for pull-weld, through-hole wiring, short circuiting, signs of overheating. Check back with the customer and recommend best replacement.

5. Check for 115 voltage to see if it is the value specified.

6. Make repairs—consult measurements to determine that exposed parts are adequately insulated from the supply circuit before returning the product to the customer.
