Ghost Guns Mark A. Tallman, 2020-08-13 With thorough analysis and balanced reporting, Ghost Guns: Hobbyists, Hackers, and the Homemade Weapons Revolution is an essential resource for readers seeking to understand the rise of homemade firearms and future options for managing them. For more than a century, strict gun control was possible because firearms were produced in centralized industrial factories. Today, the Fourth Industrial Revolution, combining old and new technologies, threatens to upend this arrangement. An increasing number of hobbyists, makers, technology provocateurs, and sophisticated criminals are proving that you don't need a factory to make guns anymore. The security challenges of this transformation are increasingly apparent, but the technologies behind it hold tremendous potential, and while ignoring the security implications would entail risks, the costs of new policies also must be evaluated. Do it yourself or DIY weapons will bring significant ramifications for First and Second Amendment law, international and homeland security, crime control, technology, privacy, innovation, and the character of open source culture itself. How can a liberal society adjust to technologies that make it easier to produce weapons and contraband? Informative and thought-provoking, Ghost Guns: Hobbyists, Hackers, and the Homemade Weapons Revolution carefully analyzes the technical, legal, social, political, and criminological trends behind this challenging new area of illicit weapons activity.

Neal Knox - The Gun Rights War Neal Knox, 2019-07-04 This is the E-Book version of the classic compilation of Neal Knox's best writing on guns, the Second Amendment, and what YOU need to do in order to keep your rights. Updated and annotated for 2019 by son Chris Knox, this is the most comprehensive collection available of Neal Knox's writing. For almost 40 years, nothing in the gun rights movement happened outside of the influence of Neal Knox. A prolific writer, stalwart defender of freedom, bare-knuckled inside fighter, and ardent fan of anything that goes bang, here at last is the book that brings it together. The core of the writing that built his reputation and protected the rights you enjoy today. If you've enjoyed decades of classic Neal in Shotgun News, you'll savor every page. If you don't know what that means, here's your chance to look at how the gun rights war has really been fought and needs to be fought in the future. The inside story of the power struggle that gave the NRA presidency to Charlton Heston instead of Neal by four votes. Neal's prediction that suicide terrorists might use jets as weapons a dozen years before the 9/11 attacks. The odd connection between the Bradys and the CIA. How Republicans tried to derail the Gun Owners Protection Act so much more. True stories of the Second Amendment battle for freedom to keep and bear arms. Neal Knox was a dark force within the NRA. New York Times. The evil genius at NRA. Ted Kennedy. The conscience of the gun rights movement. Gun Week. A hero, not the hero of the 20th century gun rights movement. Tanya Metaksa, former Executive Director, NRA. ILA.
