Military Review, 1969

The Politics of Authoritarian Rule Milan W. Svoblik, 2012-09-17 What drives politics in dictatorships? Milan W. Svoblik argues authoritarian regimes must resolve two fundamental conflicts: Dictators face threats from the masses over which they rule; the problem of authoritarian control. Secondly, from the elites with whom dictators rule; the problem of authoritarian power sharing. Using the tools of game theory, Svoblik explains why some dictators establish personal autocracy and stay in power for decades; why elsewhere leadership changes are regular and institutionalized as in contemporary China; why some dictatorships are ruled by soldiers as Uganda was under Idi Amin; why many authoritarian regimes such as PRI-era Mexico maintain regime-sanctioned political parties; and why a country's authoritarian past casts a long shadow over its prospects for democracy as the unfolding events of the Arab Spring reveal. Svoblik complements these and other historical case studies with the statistical analysis of institutions, leaders, and ruling coalitions across dictatorships from 1946 to 2008.
