How to Read Texts Neil McCaw, 2013-09-26 Now in its second edition *How to Read Texts* introduces students to key critical approaches to literary texts and offers a practical introduction for students developing their own critical and close reading skills. Written in a lively jargon-free style, it explains critical concepts, approaches, and ideas including Debates around critical theory, The role of history and context, The links between creativity and criticism, The relationship between author, reader, and text. The new edition now includes guidance on analysing a range of multi-media texts including film and online media as well as the purely literary. In addition to new practical examples, readings, exercises, and checkpoints that help students to build confidence in their own critical readings of both primary and secondary texts, the book now also offers guidance on writing fully formed critical essays and tips for independent research. Comprehensively updated and revised throughout, *How to Read Texts* is an indispensable guide for students making the transition to university study.

The Preobrazhensky Papers Mikhail M. Gorinov, 2014-03-10 Historians generally recognise E. A. Preobrazhensky as the most famous Soviet economist of the 1920s. English language readers know him best as author of *The New Economics* and co-author with N. I. Bukharin of *The ABC of Communism*. The documents in this volume, many newly discovered and almost all translated into English for the first time, reveal a Preobrazhensky previously unknown, whose interests ranged far beyond economics to include not only party debates and issues affecting the lives of workers and peasants but also philosophy, world events, and Russian history, culture, and politics. Including moments of triumph and tragedy, they tell an intimate story of political awakening and of commitment to socialist revolution as the path to human dignity. *Report of the Executive Council of Iowa of Expenses and Disposition of Fees and Moneys Collected by State Officers and Departments for the Period from ...* Iowa.
