Svanberg,Peter Öhman,Alan Lowe,2023-02-03 This handbook collects the most up to date scholarship knowledge and new
developments of big data and data analytics by bringing together many strands of contextual and disciplinary research In
recent times while there has been considerable research in exploring the role of big data data analytics and textual analytics
in accounting and auditing we still lack evidence on what kinds of best practices academics practitioners and organizations
can implement and use To achieve this aim the handbook focuses on both conventional and contemporary issues facing by
academics practitioners and organizations particularly when technology and business environments are changing faster than
ever All the chapters in this handbook provide both retrospective and contemporary views and commentaries by leading and
knowledgeable scholars in the field who offer unique insights on the changing role of accounting and auditing in today s data
and analytics driven environment Aimed at academics practitioners students and consultants in the areas of accounting
auditing and other business disciplines the handbook provides high level insight into the design implementation and working
of big data and data analytics practices for all types of organizations worldwide The leading scholars in the field provide
critical evaluations and guidance on big data and data analytics by illustrating issues related to various sectors such as public
private not for profit and social enterprises The handbook s content will be highly desirable and accessible to accounting and
non accounting audiences across the globe
