Valeri,2024-10-01 This text is relevant for members of faculties of education such as administrators directors of teacher education programs teacher educators for pre service and or inservice teachers and teacher candidates There is also a potential appeal to professors in higher education institutions as integration practices can be adapted to meet the requirements across disciplines K 12 classroom based teachers may find this text useful as a source for content based learning either from disciplinary or cross disciplinary practice as well as individuals serving in an educational capacity in community based settings for instance Parts of this work have already been presented in both US and Canadian based conferences such as the American Educational Research Association and the Canadian Society for the Study of Education and serve as optimal venues to reach the academic market Advertising in publications geared towards providing practical articles could also serve a way to reach classroom based and community based educators ENDORSEMENTS Everybody needs to eat Unfortunately too many communities live food insecure and to

not address this in our education system is a massive problem Valeri in the book Educating about Food Security through Environmental Education offers brilliant insight through the study of integrating food security into teacher education In doing so Valeri shares the importance of language and specifically root metaphors in addressing food security as a deep cultural problem rather than one of natural occurrence and this book highlights generative ways to not only address food security in teacher education but also to prepare teachers that feel empowered to make very real material changes in their classrooms and communities John Lupinacci Washington State University In light of climate change and the impacts it will inevitably have on food production distribution Educating about food security through EE is an important study examining the intersections of teacher education food security and sustainability Examining ways in which educators and researchers ought to integrate food security into classrooms while also examining the cultural causes of systemic inequity this book is important for teacher educators who are interested in further incorporating food security and sustainability into their classrooms

Brandon Edwards Schuth Oulu Finland **Assessment in Geographical Education: An International Perspective**

Theresa Bourke, Reece Mills, Rod Lane, 2022-02-27 In recent years there has been increased attention paid to the importance of assessment in Geographical Education the chosen subject for this book Assessment is an important tool for collecting information about student learning and for providing timely data to inform key stakeholders including students teachers parents and policymakers To be effective assessment needs to be valid reliable and fair Validity is about ensuring that we assess what we claim we are assessing Reliability is about measuring performance and understanding in a consistent way Without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do As geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master We need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning While there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare This is a concern given the distinctive nature of geography and the important role of assessment in the learning process This scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography The chapters are written by leading researchers in Geographical Education from across the globe These chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across Australia USA South Korea Germany Switzerland and Singapore What unifies the work in this book is that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills **Social Studies for Young Children** Gayle Mindes, Mark Newman, 2021-08-30 This book anchors the social studies as the central unifying force for young children Teachers use the inquiry process to foster child development of social skills and citizenship ideals in their first classroom experiences
