world from Houston to Japan to the legendary Star City in Russia Countless hours spent in centrifuges spaceship simulators and under water for spacewalk practice Then one day a rocket was waiting for her on the launch pad And after eight minutes of wild ascent she was on orbit crunched up with her two crewmates in a tiny spaceship that took them to the International Space Station With honesty and warmth Cristoforetti chronicles the two hundred days she spent on the ISS the joys and challenges of being in an extraordinary place from the sublime sight of seeing Earth for the first time to more unusual concerns such as mastering the art of floating How do you find your bearings when there is no up and down What is it like to run in weightlessness And how do you cook in space This is an enthralling inspiring and surprisingly down to earth story about what it really takes to pursue your dreams
