Karayanidi,2020-02-20 This book explores the theory and practice of judicial jurisdiction within the field of private international law It offers a revised look at values justifying the power of courts to hear and decide cross border disputes and demonstrates that a re conceptualisation of jurisdiction is needed Rather than deriving from territorial power of states jurisdiction in civil and commercial cross border matters ought to be driven by party autonomy This autonomy can be limited by certain considerations of equality and critical state sovereign interests The book applies this normative view to the existing rules of jurisdiction in the European Union and the Russian Federation These regimes are chosen due to their unique positions towards values in private international law and contrasting societal norms that generate and accommodate these values Notwithstanding disparate cultural and political ideas these regimes reveal a surprising level of consistency when it comes to enforcement of party autonomy There is nevertheless room for improvement The book demonstrates to scholars policy makers and lawmakers that jurisdiction should be re centred around the interests of private actors and proposes ways to improve the current rules *A Restatement of the English Law of Contract* Andrew Burrows,2016 A Restatement of the English Law of Contract is the second Restatement of English law undertaken by Andrew Burrows following on the success of A Restatement of the English Law of Unjust Enrichment OUP 2012 Designed to enhance the accessibility of the common law the Restatement comprises a number of clear succinct rules fully explained by a supporting commentary which set out the general law of contract in England and Wales Written by one of the leading authorities in this area in collaboration with an advisory group of senior judges academics and legal practitioners the Restatement offers a novel and powerfully persuasive statement of the law in this central area of English law All lawyers dealing with the English law of contract whether as practitioners judges academics or law students cannot but benefit from this Restatement The English law of contract is one of the most respected systems of contract law in the world and by the device of a choice of law clause is often chosen by foreign commercial parties as the applicable law to govern their contract One of the aims of the Restatement is for the reader including those from civil law jurisdictions to see quickly and easily how the different elements of the English law of contract fit together **The Conflict of Laws** Adrian Briggs,2019-10-24 This invaluable introduction to the study of the conflict of laws provides a survey and analysis of the rules of private international law as they apply in England Written to take account

of the various possible outcomes of the Brexit process it goes as far as is possible to make sense of the effect it will have on English private international law The volume covers general principles jurisdiction and the effect of foreign judgments the law applicable to contractual and non contractual obligations the private international law of property of adults the increasingly complex law of children is described in bare outline and of corporations It does so in a manner which explains and illuminates the principles which underpin the subject in a clear and coherent fashion as the wealth of literature case law and legislation can often obscure the architecture of the subject and unnecessarily complicate its study This new edition organizes the existing material in light of European legislation on private international law reflecting the way in which an accurate representation of the topic requires it to be interpreted as European law with a common law periphery instead of common law with European legislative influences As at the time of writing and possibly for some time to come the consequences of Brexit are a mystery but the attempt is made to describe the various possible shapes which the subject will assume in the future The book adopts a pragmatic approach and avoids the more abstract theory as the theory of the conflict of laws is actually to be found in and by applying the legislation and jurisprudence to the cases and issues which arise in private international litigation and in giving legal advice
