Young, 2017-01-11 You can tell a true war story if you just keep on telling it Tim O'Brien writes in *The Things They Carried* Widely regarded as the most important novelist to come out of the American war in Viet Nam O'Brien has kept on telling true war stories not only in narratives that cycle through multiple fictional and non-fictional versions of the war's defining experiences but also by rewriting those stories again and again Key moments of revision extend from early drafts to the initial appearance of selected chapters in magazines across typescripts and page proofs for first editions and through continuing post publication variants in reprints *How to Revise a True War Story* is the first book length study of O'Brien's archival papers at the University of Texas's Harry Ransom Center Drawing on extensive study of drafts and other prepublication materials as well as the multiple published versions of O'Brien's works John K Young tells the untold stories behind the production of such key texts as *Going After Cacciato* *The Things They Carried* and *In the Lake of the Woods* By reading not just the texts that have been published but also the versions they could have been Young demonstrates the important choices O'Brien and his editors have made about how to represent the traumas of the war in Viet Nam The result is a series of texts that refuse to settle into a finished or stable form just as the stories they present insist on being told and retold in new and changing ways In their lack of textual stability these variants across different versions enact for O'Brien's readers the kinds of narrative volatility that is key to the American literature emerging from the war in Viet Nam Perhaps in this case you can tell a true war story if you just keep on revising it *Catalogue of Title-entries of Books*
