Lacan Et La Philosophie:

, Lacan & the Human Sciences Alexandre Leupin, 1991-01-01 The psychoanalyst Jacques Lacan 1901 81 left a legacy of thought that increasingly commands the attention of American scholars and critics His provocative essays and wide ranging seminars and lectures attempted with remarkable success to bridge the supposedly unbridgeable gap between the humanities and modern science For some time his influence has shadowed the theoretical work being done in philosophy psychology anthropology women s studies and literature In *Lacan and the Human Sciences* eight eminent scholars examine how ideas entered these fields how well they were understood and adapted and what fruit they have produced The editor Alexandre Leupin whose introduction reveals the underpinnings of Lacan s thought views the book as a blueprint for overcoming the present impasses of scientific and humanistic discourses and their imaginary contradictions The essays demonstrate the interdisciplinary nature of Lacanian psychoanalysis The relevance of his work to epistemology is considered by Jean Claude Milner Fran ois Regnault and Ellie Ragland Sullivan to anthropology by Jean Joseph Goux to feminist studies by Jane Gallop and to literature by Dennis Porter and Denis Hollier The result is a book that points to a new and more pertinent way of dealing on one hand with the problems of epistemology and on the other with the question of literary theory in the humanities *Key Concepts of Lacanian Psychoanalysis* Dany Nobus, 2020-10-13 By detailing the constitutive incompleteness of the Lacanian project the contributors have guaranteed the success of their book which will remain a major reference for a long time to come Joan Copjec **Psychoanalysis** David Henderson, 2015-09-04 This volume offers a rich tapestry of psychoanalytic thought The authors demonstrate bold creativity in their use of psychoanalytic concepts to think about a wide range of problems in philosophy art and the clinic The collection grew out of *Psychoanalysis Culture and Society* a conference for postgraduate students and research fellows organised by the Centre for Psychoanalysis Middlesex University London in June 2014 The range of themes addressed at the conference demonstrates the interdisciplinary character of psychoanalytic studies Few of the contributors are affiliated with established psychoanalytic research centres and consequently can feel isolated within their respective departments They were pleased to have the opportunity to meet with others who are pursuing related questions History of Structuralism: The rising sign, 1945-1966 François Dosse, 1997 Content Description Includes bibliographical references and index *La philosophie contemporaine / Contemporary philosophy* Guttorm Fløistad, 2012-12-06 The present publication is a continuation of two earlier series of chronicles *Philosophy in the Mid Century* Firenze 1958 59 and *Contemporary Philosophy* Firenze 1968 edited by Raymond Klibansky As with the earlier series the present chronicles purport to give a survey of significant trends in contemporary philosophical discussion The time space covered by the present series is approximately 1966 1978 The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly

in philosophical logic and the philosophy of language the convergence of interest though not necessarily of opinion of different traditions upon certain problems and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributory factors Surveys of the present kind are a valuable source of knowledge of this complexity and may as such be of assistance in renewing the understanding of one's own philosophical problems The surveys it is to be hoped may also help to strengthen the Socratic element of modern philosophy the dialogue or Kommunikationsgemeinschaft So far four volumes have been prepared for the new series The present chronicles in Philosophy of Science Vol 2 follow the chronicles in the Philosophy of Language and Philosophical Logic Vol

Contemporary Film Theory Antony Easthope, 2014-07-22 During the twentieth century the medium of film has developed as a means of understanding the complexity of modern life Since 1968 film theory has concentrated not so much on theme or content but on the deeper question of how the medium works on its viewer Film theory has been profoundly influenced by the writings of such modern thinkers as Saussure Freud Lacan Anthusser Derrida and Kristeva It combines modes of textual analysis relating to linguistics and semiology a Marxist reading of ideology and theories of subjectivity the spectator and gender redefined by psychoanalysis This judicious selection from key work by Stephen Heath Fredric Jameson Laura Mulvey Mary Ann Doanne and others represents some of the most important contemporary writing about film It provides a consistent and developing analysis that will be of interest to students concerned with film and film studies as well as students of cultural media and communication studies

Logics of Disintegration Peter Dews, 2020-05-05 Over the last two decades contemporary French philosophy has exercised a powerful influence on intellectual life across both Europe and America Post structuralist strategies and concepts have played an important role in many forms of social cultural and aesthetic analysis particularly on the Left Despite the widespread reception however there has still been comparatively little analysis of the basic philosophical assumptions of post structuralism or of the compatibility of many of its central tenets with the progressive political orientations with which it is frequently associated In this book Peter Dews seeks to remedy this situation by setting post structuralist thought in relation to another more explicitly critical tradition in the philosophical analysis of modernity that of the Frankfurt School from Adorno to Habermas *Logics of Disintegration* will be of interest to readers across a wide range of disciplines from literary criticism to social theory which have felt the impact of post structuralism and to anyone who wishes to reach a balanced assessment of one of the most influential intellectual currents of our time

Antigone, in Her Unbearable Splendor Charles Freeland, 2013-06-01 A study of Lacan's engagement with the Western philosophical traditions of ethical and political thought in his seventh seminar and later work

Scenarios of the Imaginary Josue V. Harari, 2019-06-30 From Proust to Beckett from Blanchot to Derrida from Freud to Lacan and from L. vi Strauss to Ren Girard all of our theories of modernity have been predicated upon a nostalgia for the real In this lively and perceptive diagnosis of the malaise of contemporary theorists Josu Harari interprets the French Enlightenment in terms of

the relationship between theory and the imaginary and explores the paradox by which theories that purport to describe the real lack any dimension of reality Through readings of texts by some of the progenitors of influential modern theories Harari explores the working strategies of the imaginary In particular he illuminates the founding moment an instant of personal crisis for the author during which a theory is infused by a fictional scenario Montesquieu's phantasm of the body resulting in his theory of government Rousseau's narcissistic delirium in Emile resulting in his theory of education the theory of psychoanalysis resulting from Freud's unconscious motives for choosing the Oedipal theory over the seduction theory of neurosis and the theory of structural anthropology generated by a psychodrama in Tristes Tropiques which Harari reads as a symptom of Lévi Strauss's anguish when he is confronted with reality Two striking chapters on Sade at the center of the book reveal the operation of the theoretical imaginary in libertine discourse Scenarios of the Imaginary will find a wide audience among students and scholars of French literature particularly of the eighteenth century and of contemporary French thought and among comparativists literary theorists anthropologists and historians

Cixous after / depuis 2000 Elizabeth Berglund Hall, Frédérique Chevillot, Eilene Hoft-March, Maribel Penalver Vicea, 2017-11-27 The essays in Cixous after depuis 2000 edited by Hall Chevillot Hoft March and Penalver Vicea center on the events from 2000 to 2015 that mark Hélène Cixous's life and writing the donation of her archives to the Bibliothèque Nationale de France her return to Algeria the death of her friend Jacques Derrida the 40th anniversary of her essay Le Rire de la Médiuse and finally of greatest import in her work of the 21st century the last years and death of her mother Eve The essays explore an important movement in Hélène Cixous's oeuvre as it shifts its focus not away from questions of the body language difference and sexuality but to include a broader engagement with mourning suffering aging and death Les essais dans Cixous after depuis 2000 réunis sous la direction de Hall Chevillot Hoft March et Penalver Vicea portent sur les événements des années 2000-2015 qui ont marqué la vie et l'écriture d'Hélène Cixous le don de ses archives à la Bibliothèque Nationale de France son retour en Algérie la mort de son ami Jacques Derrida le 40e anniversaire de la publication du Rire de la Médiuse et enfin les dernières années et la mort de sa mère Les essais explorent un mouvement important de l'œuvre d'Hélène Cixous qui comprend une interrogation incessante sur le corps le langage la différence et la sexualité mais qui se tourne galement vers le deuil la souffrance la vieillesse et la mort

Generation Existential Ethan Kleinberg, 2018-09-05 When we think of Heidegger's influence in France we tend to focus on such contemporary thinkers as Jacques Derrida Michel Foucault and Jean-François Lyotard In Generation Existential Ethan Kleinberg shifts the focus to the initial reception of Heidegger's philosophy in France by those who first encountered it Kleinberg explains the appeal of Heidegger's philosophy to French thinkers as well as the ways they incorporated and expanded on it in their own work through the interwar Second World War and early postwar periods In so doing Kleinberg offers new insights into intellectual figures whose influence on modern French philosophy has been enormous including some whose thought remains under explored outside France Among Kleinberg's generation existential are Jean Beaufret the only

member of the group whom one could characterize as a Heideggerian Maurice Blanchot Alexandre Kojve Emmanuel Levinas and Jean Paul Sartre In showing how each of these figures engaged with Heidegger Kleinberg helps us to understand how the philosophy of this right wing thinker had such a profound influence on intellectuals of the left Furthermore Kleinberg maintains that our view of Heidegger's influence on contemporary thought is contingent on our comprehension of the ways in which his philosophy was initially understood translated and incorporated into the French philosophical canon by this earlier generation

Intentionality, Desire, Responsibility A.W.M. Mooij, 2010-09-14 Recently the predominance of natural sciences seems to have cast doubt on the legitimacy of the human sciences Adopting a phenomenological and hermeneutical point of view this book is intended to contribute towards a justification of the human sciences taking account of quintessentially human characteristics The basic assumption is that man interprets his own experience and the world around him yielding to the limitations imposed by language Central themes are intentionality and causality desire and lack responsibility and loss of responsibility Relevant domains are psychopathology and psychoanalysis following Lacan's interpretation and law The rich phenomenological traditions in these domains will be drawn from throughout this book

Early Twentieth-Century Continental Philosophy Leonard Lawlor, 2011-12-01 An outstanding book that will serve as a fine supplement and guide to important primary texts in early twentieth century continental philosophy Notre Dame Philosophical Reviews Early Twentieth Century Continental Philosophy offers a lucid and engaging introduction to the major works of French and German philosophy in the first half of the century Leonard Lawlor takes as his starting point the original publication of Bergson's Introduction to Metaphysics in 1903 and his endpoint as the original publication Foucault's The Thought of the Outside in 1966 Lawlor interprets key texts by major figures in the continental tradition such as Bergson and Foucault as well as Freud Heidegger Husserl and Merleau Ponty Taken together his assessment of these figures illustrates the major theoretical trends of the time immanence difference multiplicity and the overcoming of metaphysics Badiou

Peter Hallward, 2003 **Looking After Nietzsche** Laurence A. Rickels, 1990-01-01 This book like the post Heideggerian reception of Nietzsche rides out the splits and frays of the text offering an up to date look at international Nietzsche scholarship Included are topics such as the collaboration of German thought with the rise of National Socialism and the alliance between Nietzschean genealogy and Freudian culture criticism in regard to technology and the unconscious the status of moral imperatives from Kant to Heidegger and Heidegger's alleged rediscovery of Nietzsche as the last metaphysician Looking After Nietzsche is nonexclusionary in the risks it takes every thread of Nietzsche is pursued throughout its labyrinthine entanglements **Young Foucault** Elisabetta Basso, 2022-11-22 In the 1950s long before his ascent to international renown Michel Foucault published a scant few works His early writings on psychology psychopathology and anthropology have been dismissed as immature However recently discovered manuscripts from the mid 1950s when Foucault was a lecturer at the University of Lille testify to the significance of the work that the philosopher

produced in the years leading up to the archaeological project he launched with *History of Madness* Elisabetta Basso offers a groundbreaking and in depth analysis of Foucault's Lille manuscripts that sheds new light on the origins of his philosophical project She considers the epistemological style and methodology of these writings as well as their philosophical context and the scholarly networks in which Foucault was active foregrounding his relationship to existential psychiatry Young Foucault blurs the boundaries between biography and theory exploring the transformations and at times contradictions that characterize the intellectual trajectory of a philosopher who as Foucault himself put it turned to psychology and from psychology to history Retracing the first steps of the philosopher's intellectual journey Basso shows how Foucault's early writings provide key insights into his archaeological work of the 1960s Assembling a vast array of archival sources including manuscripts reading notes notes for lectures and conferences and correspondence this book develops a new and deeper understanding of Foucault's body of work

The Void and the Metaphors Yasunori Sugimura, 2008 This book aims to revise the traditional interpretation of William Golding's fiction The author investigates Golding's complicated metaphors which fluctuate so widely as to make consistent readings almost impossible The study reveals that these fluctuating metaphors are created around a void which is depicted not only as a gap but also as an impenetrable dark spot or a counter gaze The characters in Golding's fiction endeavour to symbolise the void but it ultimately resists symbolisation Mainly from the perspective of semiotics psychoanalysis and philosophy the book looks at the way in which the elements excluded from the symbolic system react against it and leave this void The author then focuses on the void's significance in the creation of unique metaphors

Heidegger in France Dominique Janicaud, 2015-10-19 Dominique Janicaud claimed that every French intellectual movement from existentialism to psychoanalysis was influenced by Martin Heidegger This translation of Janicaud's landmark work *Heidegger en France* details Heidegger's reception in philosophy and other humanistic and social science disciplines Interviews with key French thinkers such as Françoise Dastur Jacques Derrida Liane Escoubas Jean Greisch Philippe Lacoue Labarthe Jean Luc Marion and Jean Luc Nancy are included and provide further reflection on Heidegger's relationship to French philosophy An intellectual undertaking of authoritative scope this work furnishes a thorough history of the French reception of Heidegger's thought

The Angel's Cry Michel Poizat, 1992 French in 1986 is now available in Arthur Denner's fluid and sensitive English translation Predictably Poizat's route is not at all a conventional one Rather than taking as his point of departure the intentions of composers and librettists he is primarily concerned with the expectations and desires of the audience He reports on an informal group interview with overnight standees on the Paris Opera House steps as they compare notes on how opera became an addiction
