**“Masters” and “Natives”** Svetlana Gorshenina, Philippe Bornet, Michel E. Fuchs, Claude Rapin, 2019-10-08 The book focuses on the relational dynamic between masters and natives in the construction of scholarly narratives about the past in the fields of archeology history or the study of religions Reconsidering the role of subaltern actors that recent postcolonial studies have tended to ignore the present book emphasizes the complex relations between representatives of the imperial power and local actors and analyzes how masters and natives and their respective cultures have shaped each other in the course of the interaction Through various vectors of intercultural transfer and knowledge exchange through the circulation of ideas techniques and human beings new visions of the past of extra European regions emerged as did collective memories resulting from various kinds of appropriations In this framework the most important question is how these dynamic processes determined collective memories of the past in plural post colonial in particular Asian worlds participating to the

,1996-06-15 In this ambitious study of the intense and often adversarial relationship between English and American literature  
in the nineteenth century Robert Weisbuch portrays the rise of American literary nationalism as a self conscious effort to  
resist and finally to transcend the contemporary British influence Describing the transatlantic double cross of literary  
influence Weisbuch documents both the American desire to create a literature distinctly different from English models and  
the English insistence that any such attempt could only fail The American response as he demonstrates was to make  
strengths out of national disadvantages by rethinking history time and traditional concepts of the self and by reinterpreting  
and ridiculing major British texts in mocking allusions and scornful parodies Weisbuch approaches a precise characterization  
of this double cross by focusing on paired sets of English and American texts Investigations of the causes motives and literary  
results of the struggle alternate with detailed analyses of several test cases Weisbuch considers Melville s challenge to  
Dickens Thoreau s response to Coleridge and Wordsworth Hawthorne s adaptation of Keats and influence on Eliot Whitman s  
competition with Arnold and Poe s reshaping of Shelley Adding a new dimension to the exploration of an emerging aesthetic
