S. Chatterjee,N.P. Singh,D.P. Goyal,Narain Gupta,2014-10-27 The changing dynamics of business worldwide have led organizations to look beyond traditional managerial practices while at the same time attempting to retain their core competitive advantages This development has called upon academicians and practitioners alike to reassess the different aspects of business management such as macroeconomic variables the nature of the market the changing features of the workplace the new work ethos and or employer employee exchanges In this context the book provides essential insights on industry innovations academic advances and policy movements with regard to recovering markets in India and around the globe The individual papers highlight potential avenues that could allow industry to better understand and respond to the global crisis The book collects research papers presented at the Global Conference on Managing in Recovering Markets GCMRM held in March 2014 Seven international and 120 national business schools and management universities were represented at the conference the first in a series of 13 planned under the GCMRM agenda for 2014 17 The book includes more than 30 research papers chosen from a pool of 118 presented at the conference all of which have undergone a rigorous blind review process A Million Cars For A Billion People Gautam Sen,27-02-15 Can one car transform a nation The Ford Model T did do so a century ago when it replaced the horse brought about a revolution in agriculture became a stimulus to urbanization that eventually changed the landscape of America Though the Maruti 800 the Tata Indica the Hyundai Santro and the Maruti Alto became engines of growth for India these cars neither drove away the cow nor changed the way Indians travelled Tata s Nano was expected to change all that and become the ultimate people s car capturing the imagination of the middle class across nations and cultures In spite of its petite dimensions the Nano was meant to stand tall Yet it did not What caused it to fail and fall from grace despite being lauded as the right product at the right time and the most significant new

car since the Ford Model T was introduced 100 years ago But is it really all over or is there still hope for India s little wonder What will the people s cars of tomorrow be like A Million Cars for a Billion People delves into the questions concerns and doubts as well as the many misconceptions and myths that have gathered momentum over the years about India s automotive history and the industry s mission to create a true people s car The very first cars that came to India the early beginnings of the industry the nascent history of the automobile across nations like Germany France US the UK Italy Japan and South Korea is narrated with authority and charm from the viewpoint of the quest for the ultimate people s car
