Law Friedl Weiss,Armin Kammel,2015-05-26 The Changing Landscape of Global Financial Governance and the Role of Soft Law provides interdisciplinary perspectives on the changing landscape of global financial governance by exploring the impact and role of soft law directly or as a precursor of hard law pertaining to financial governance Since the shaping of financial governance impacts national regional and global levels of regulation different views and arguments contribute to the ongoing discussions about financial regulation Against this background this book brings together perspectives of economists and lawyers who have not rallied to one or the other popular call for more regulation as a panacea for the prevention of future global financial crises calls which have all but drowned out more nuanced scientific debates Instead their analysis of aspects of remedial regulatory policy prescriptions already made or proposed demonstrates that carefully designed soft law can be deployed as a valuable method or tool of mediation between the unrestrained autonomy of dysfunctional markets and

overzealously crafted hard law      *Mosby's Fundamentals of Therapeutic Massage* Sandy Fritz, 2000 The second edition of Mosby's *Fundamentals of Therapeutic Massage* has been updated to reflect the changes in the growing evolving field of therapeutic massage It is an interactive easy to read text that is designed for the student of massage the practitioner seeking a resource for continuing education and any health care professional with an interest in alternative therapies Mosby's *Fundamentals of Therapeutic Massage* second edition not only presents necessary entry level information but also lays the foundation for the massage professional to work effectively in the health care environment Book jacket      **Transparency in Insurance Contract Law** Pierpaolo Marano, Kyriaki Noussia, 2020-03-11 This Volume of the AIDA Europe Research Series on Insurance Law and Regulation focuses on transparency as the guiding principle of modern insurance law It consists of chapters written by leaders in the respective field who address transparency in a range of civil and common law jurisdictions along with overview chapters Each chapter reviews the transparency principles applicable in the jurisdiction discussed Whether expressly or impliedly all jurisdictions recognize a duty on the part of the insured to make a fair presentation of the risk when submitting a proposal for cover to the insurers although there is little consensus on the scope of that duty Disputed matters in this regard include whether it is satisfied by honest answers to express questions or whether there is a spontaneous duty of disclosure whether facts relating to the insured's character as opposed to the nature of the risk itself are to be presented to the insurers the role of insurance intermediaries in the placement process and the remedy for breach of duty Transparency is however a much wider concept Potential policyholders are in principle entitled to be made aware of the key terms of coverage and to be warned of hidden traps such as conditions precedent average clauses and excess provisions but there are a range of different approaches Some jurisdictions have adopted a soft law approach using codes of practice for pre contract disclosure while other jurisdictions employ the rather nebulous duty of utmost good faith Leaving aside placement transparency is also demanded after the policy has been incepted The insured is required to be transparent during the claims process There is less consistency in national legislation regarding the implementation of transparency by insurers in the context of handling claims
