Davies,Nicole George,Jacqui True,2018-10-29 Fifteen years after the adoption of UN Security Council Resolution 1325 which establishes the Women Peace and Security agenda there is now a need to assess the impacts of gender equality efforts and to understand why and how gender equality reforms have advanced to the extent that they have This book examines how international peace and security is re envisioned from a gender perspective by mostly focusing on the nuances presented by the Asia Pacific region It argues that despite the diversity of political socio cultural and economic systems in the Asia Pacific women and girls in the region continue to experience similar forms of insecurities Several countries in the Asia Pacific have demonstrated relative peace and stability In addition women s leadership and participation in peacebuilding are and continue to be increasingly recognized in the region too However as the chapters in this book demonstrate applying a critical gender analysis allows for the interrogation of veneers of political

order which can then mask or normalise everyday gendered insecurities The analysis of country cases such as Myanmar Cambodia and Fiji underscores a rethinking of the political order in the Asia Pacific which leaves existing gender inequalities intact The chapters in this book were originally published in a special issue in the International Feminist Journal of Politics

The Continuing Imperialism of Free Trade Jo Grady, Chris Grocott,2018-10-08 In 1953 John Gallagher and Ronald Robinson shook the foundations of imperial history with their essay The Imperialism of Free Trade They reshaped how historians saw the British empire focussing not on the red bits on the map and the wishes of policy makers in London but rather on British economic and political influence globally Expanding on this analysis this volume

Wajner, 2021-07-01

Scholars of international relations generally consider that under conditions of violent conflict and war smuggling and trans border crime are likely to thrive In contrast this book argues that in fact it is globalisation and peaceful borders that have enabled transnational illicit flows conducted by violent non state actors including transnational criminal organizations drug trafficking organizations and terrorist cells who exploit the looseness and demilitarization of borderlands Empirically the book draws on case studies from the Americas compared with other regions of the world experiencing similar phenomena including the European Union and Southeast Europe the Western Balkans Southern Africa and Southeast Asia To explain the phenomenon in itself the authors examine the type of peaceful borders and regimes involved in each case how strong each country is in the governance of their borderlands their political willingness to control their peaceful borders and the prevailing socio economic conditions across the borderlands *Exclusion and Inclusion in International Migration: Power, Resistance and Identity* Armağan Teke Lloyd, 2019-04-30

People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this
