David J. Nelson, 2019-04-11 Florida Historical Society Rembert Patrick Award Florida Book Awards Silver Medal for Florida  
Nonfiction Countering the conventional narrative that Florida's tourism industry suffered during the Great Depression this  
book shows that the 1930s were in reality the starting point for much that characterizes modern Florida's tourism David  
Nelson argues that state and federal government programs designed to reboot the economy during this decade are crucial to  
understanding the state today Nelson examines the impact of three connected initiatives the federal New Deal its Civilian  
Conservation Corps program CCC and the CCC's creation of the Florida Park Service He reveals that the CCC designed state  
parks to reinforce the popular image of Florida as a tropical exotic and safe paradise The CCC often removed native flora and  
fauna introduced exotic species and created artificial landscapes that were then presented as natural Nelson discusses how  
Florida business leaders benefitted from federally funded development and the ways residents and business owners rejected  
or supported the commercialization and shifting cultural identity of their state A detailed look at a unique era in which the  
state government sponsored the tourism industry helped commodify natural resources and boosted mythical ideas of the Real  
Florida that endure today this book makes the case that the creation of the Florida Park Service is the story of modern
