Gauteng Dlife Sceince Question Paper For June Examination:

One Virus, Two Countries Steven Friedman, 2021-11-01 Has South Africa done well at limiting illness and deaths during the COVID 19 pandemic Academic and political commentator Steven Friedman thinks not While the country s mainstream media believes it has in his view the evidence tells another story South Africa has experienced by far the most cases and deaths in Africa at one point as many as the rest of the continent combined *One Virus Two Countries* What Covid 19 tells us about South Africa offers a searing analysis of government and expert scientists responses to the pandemic Friedman argues that South Africa is two societies in one a First World which resembles Western Europe and North America and a Third World which looks much like the rest of Africa or South Asia The South African state the media and the scientific community have largely tried to deal with the virus through a First World lens in which much of the country was either invisible or a problem not a partner Friedman argues this approach prevented the country from responding in a way which would have protected most citizens This is why case numbers and deaths are so high South Africa has done worse than the rest of Africa not despite the fact that it has a more developed health system but because it does *One Virus Two Countries* is a controversial book that will rouse much needed debate about South Africa s health and economic system in a context of serious inequality

Proceedings of the 10th Focus Conference (TFC 2023) Manyane Makua, Mariam Akinlolu, Mashango Sithole, Phiwayinkosi Gumede, Cebo Nyondo, Ntombikhona Khuzwayo, Mandlenkosi Mhlongo, 2023-11-03 This is an open access book The 2023 Focus Conference will focus on Goal Four Quality Education of the United Nations UN Sustainable Development Goals SGD Goal Four is seized with providing equal access for all women and men to affordable and quality technical vocational and tertiary education including university Quality education in this context means the ability to function provide and derive value in society The theme of the conference is therefore coined as The Role of Higher Education in the Attainment of Sustainable Quality Education Through this theme the conference will provide a space for participants to share practical knowledge experiences and possible solutions to the myriad of problems that confront the higher education sector Universities are often thought of as ivory towers far removed from the realities that confront global societies To compound this higher education is increasingly being questioned for its relevance in providing practical and innovative solutions to existing societal problems Such questions often navigate around the relevance of the academic programmes being offered curriculum the capacity of staff employability of graduates and generally the ability of these institutions to understand why they exist Indeed higher education s role in creating a sustainable future will presumably take on greater importance as the world continues to become increasingly globalised and interdependent
