Gauteng Physical Sciences November 2013 Exemplar:

Anatomy of a South African Karst Hydrosystem Philip J. Hobbs, Harrison Pienaar, Eddie van Wyk, Yongxin Xu, 2022-08-05

This book combines the results of the research activities in the assessment of water resources environment and an integrated water resource monitoring program to support preservation efforts of the aquatic environment of the Cradle of Humankind COH World Heritage Sites. A poor understanding of the surface and groundwater resources of the COH property has precipitated often alarmist reporting in the media regarding the negative impacts associated with various sources of poor quality water. The most notable of these is the acid mine drainage threat to karst ecosystems and fossil sites across the property. These circumstances have generated wide and considerable concern for the preservation of the UNESCO inscribed fossil sites and integrity of the water resources of the property.

Science, Technology and Innovation in BRICS

Countries Swapna Kumar Patra, Mammo Muchie, 2020-06-09 The term BRICS (Brazil, Russia, India, China, and South Africa) is gaining global attention both in scholarly and popular discourse. BRICS countries are crucial in terms of their vast areas, huge population, and massive economic potential. These countries are also categorized as developing countries and are aspiring to be considered as developed countries. There is commonality among these countries in that they have similar issues and problems which may require common solutions. Science, Technology, and Innovation in BRICS Countries examines whether more emphasis on Science, Technology, and Innovation (STI) capability building could be the solution to these countries' economic upgradation and poverty reduction. This book is a collection of various Science, Technology, and Innovation (STI) issues of BRICS economics and will be of interest to general readers, scholars working in this field, as well as policy makers all over the globe. The contributions come from various scholars across the globe who have published their BRICS economics research in a special issue of the African Journal of Science, Technology, Innovation, and Development.

Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities Bosch, Chantelle, Laubscher, Dorothy Joy, Kyei-Blankson, Lydia, 2021-05-14 Challenges in the educational arena are not new phenomena. However, with the recent outbreak of the COVID-19 pandemic, researchers and educators have been made even more aware of the need for a paradigm shift in education. Blended learning, as opposed to fully online learning or traditional face-to-face teaching, has been well researched and has been found to have the potential to provide better educational solutions in challenging contexts. These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full-time study, as well as limited physical capacity at institutions. Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited. Typical issues like connectivity, accessibility, lack of suitable devices, and affordability need to be taken into consideration and in cognizance of blended learning interventions. These challenges are often neglected in blended learning research but are critical discussions to be had. *Re-Envisioning and Restructuring Blended Learning for*

Underprivileged Communities shares how institutions in the developing world and less privileged communities have re imagined and restructured blended education to enhance teaching and learning for underprivileged communities This book aims to address blended learning solutions across institutional program course and activity levels The chapters will cover a variety of learning environments from rural settings to less developed countries and more and explore the programs and courses designed to improve student success and accessibility in diverse student populations This book is ideally intended for teachers administrators teacher educators practitioners stakeholders researchers academicians and students who are interested in blended learning opportunities in less privileged settings and to underserved and marginalized populations

The Palgrave Handbook of Urban Development Planning in Africa Meleckidzedek Khayesi, Francis Nyongesa Wegulo, 2022-11-25 Where can one get a synthesis of research findings on urban development planning in Africa This book addresses this gap in knowledge by distilling existing research to provide insights into theories research designs empirical findings and approaches on urban development planning in Africa Starting with the overall planning culture and strategies the book chapters move on to specific themes such as governance population poverty water recreation transport agriculture air quality and rural urban linkages This book reduces the prevailing risk of unnecessary duplication of research and the inadequate attention that is being given to extending research in new areas This situation has partly been due to existing research remaining scattered in different organizations and publications and has not been subjected to critical synthesis to unearth any new developments that it contains The book makes available research findings to be utilized in current and future urban development planning in Africa
