If you are not sure of the installation of any part of the quick start guide, please download the complete installation manual available at www.autopageusa.com. This quick start guide is a brief outline for professional installers that are familiar with the installation and operation of the vehicle start system. Please test all of your components to insure proper operation of the vehicle system returning to the customer.

For additional technical support, please call 800-434-4344 and visit our website www.autopageusa.com.

The Autopage Starter with Remote Entry System has been designed to be installed on Transponder systems with an Autopage Transmitter (DS-110).

1. Mount the unit under a clean, non-metallic surface.

2. The system must be installed and tested through a safety switch or it will not start in any forward or reverse gear.

Some Autopage Transmitter vehicles may have other DS-110 vehicles with a remote starter and have a mechanical key, key, safety switch, or other safety switch. The mechanical key does not interrupt the starter circuit when the transmitter is in any gear and does not allow the DS-110 to start in any forward or reverse gear. Therefore, the system should never be installed on any vehicle that has a mechanical key, key, safety switch.

Once you install the system, you must verify that the vehicle will not start in any forward or reverse gear regardless of the type of vehicle.

3. Mount the system under a clean, non-metallic surface.

4. Do not install any component near the battery, gas pedal or starting switch.

Some vehicles have a factory installed transponder immobilizer system that can prevent complete the installation. There is a possibility that the system cannot be installed on some immobilizer-equipped vehicles.

5. Some vehicles have an ABS or air system. The vehicle must not be started in any forward or reverse gear.

6. Disconnect the air battery before beginning work on the vehicle.

Check battery polarity before wiring any battery. Ensure that no wiring terminals or other components are located between the battery that would otherwise be damaged.

7. Do not use conventional jump lead, battery or any wiring that wiring, i.e. repair parts will possibly obstruct connectivity into the start system and may result in false alarm or incorrect operation. The suggested installing of connection points.

8. Install the wiring neatly under panels or under wire to prevent possible damage to wires.
