Isenberg, 2025-04-15 In *The Age of the Borderlands* acclaimed historian Andrew C Isenberg offers a new history of manifest destiny that breaks from triumphalist narratives of US territorial expansion Isenberg takes readers to the contested borders of Spanish Florida Missouri New Mexico California Texas and Minnesota at critical moments in the early to mid nineteenth century demonstrating that the architects of American expansion faced significant challenges from the diverse groups of people inhabiting each region In other words while the manifest destiny paradigm begins with an assumption of US strength the government and the agents it dispatched to settle and control the frontier had only a weak presence Tracing the interconnected histories of Indians slaves antislavery reformers missionaries federal agents and physicians Isenberg shows that the United States was repeatedly forced to accommodate the presence of other colonial empires and powerful Indigenous societies Anti expansionists in the borderlands welcomed the precarity of the government's power the land on which they dwelled was a grand laboratory where they could experiment with their alternative visions for American society Examining the borderlands offers an understanding not just about frontier spaces but about the nature of the early American state ambitiously expansionist but challenged by its native and imperial competitors      **The Anatomy of Fake News** Nolan Higdon, 2020-08-04 Since the 2016 U S presidential election concerns about fake news have fostered calls for government regulation and industry intervention to mitigate the influence of false content These proposals are hindered by a lack of consensus concerning the definition of fake news or its origins Media scholar Nolan Higdon contends that expanded access to critical media literacy education grounded in a comprehensive history of fake news is a more promising solution to these issues *The Anatomy of Fake News* offers the first historical examination of fake news that takes as its goal the effective teaching of critical news literacy in the United States Higdon employs a critical historical media ecosystems approach to identify the producers themes purposes and influences of fake news The findings are then incorporated into an invaluable fake news detection kit This much needed resource provides a rich history and a promising set of pedagogical strategies for mitigating the pernicious influence of fake news      **48 Liberal Lies About American History** Larry Schweikart, 2008-09-04 A historian debunks four dozen PC myths about our nation's past Over the last forty years history textbooks have become more and more politically correct and distorted about our country's past argues professor Larry Schweikart The result he says is that students graduate from high school and even college with twisted beliefs about economics foreign policy war religion race relations and many other subjects As he did in his popular *A Patriot's History of*

the United States Professor Schweikart corrects liberal bias by rediscovering facts that were once widely known He challenges distorted books by name and debunks forty eight common myths A sample The founders wanted to create a wall of separation between church and state Lincoln issued the Emancipation Proclamation only because he needed black soldiers Truman ordered the bombing of Hiroshima to intimidate the Soviets with atomic diplomacy Mikhail Gorbachev not Ronald Reagan was responsible for ending the Cold War America s past though not perfect is far more admirable than you were probably taught

**Rule of Law and Fundamental Rights** Alfredo Narváez Medécigo,2015-11-07 This book which originated from the broadly held view that there is a lack of Rule of law in Mexico and from the emphasis of traditional academia on cultural elements as the main explanation explores the question of whether there is any relationship between the system of constitutional review and thus the law as such and the level of Rule of law in a given state To do so it elaborates a theoretical model for achieving Rule of law and compares it to the constitutional review systems of the United States the Federal Republic of Germany and Mexico The study concludes that the two former states correspond to the model while the latter does not This is fundamentally due to the role each legal system assigns to ordinary jurisdiction in carrying out constitutional review Whereas the US and Germany have fostered the policy that constitutional review regarding the enforcement of basic rights is the responsibility of ordinary courts Mexico has relied too heavily on the specialized constitutional jurisdiction
