**Northern Province** ,1999      **Enterprise 200** ,1997      *Working with indigenous knowledge* Fhumulani M. Mulaudzi,Rachel T. Lebese,2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research      **Black Composers of Southern Africa** Yvonne Huskisson,1992 This publication contains details of a new up and coming generation of composers It provides information on 318 composers and as such is a standard reference word on local composers      **Annual Report of the Department of Education** Gazankulu (South Africa). Transnational Families in Africa analyses the highs and lows of family separation as a result of migration in three contexts migration within South Africa from rural to urban areas migration from other African countries into South Africa and middle class South Africans emigrating to non African countries The book foregrounds the importance of kinship and support from extended family as well as both the responsibilities migratory family members feel and the experience of loss by those left behind Across the diverse circumstances explored in the book are similarities in migrants strategies for keeping in touch but also large differences in relation to access to ICTs and ease of use that highlight the digital divide and generational gaps As elsewhere in the world and in spite of the varied experiences in these kinship circles the phenomenon that is the transnational family is showing no signs of receding This book provides a groundbreaking contribution to global debates on migration from the Global South
