**A Guide to New Religious Movements** Ronald M. Enroth, 2005-05-26 Sociologist Ronald Enroth and a team of expert contributors provide an accessible handle on the key religious movements of our day from the Church of Jesus Christ of Latter-day Saints and the Jehovah's Witnesses to contemporary versions of Hinduism Buddhism and Islam      *The Metropolitan Frontier and American Politics* Daniel Elazar, 2020-03-10 American civilization has been shaped by four decisive forces the frontier migration sectionalism and federalism The frontier has offered abundance to those who would could take advantage of its opportunities stimulated technological innovation and been the source of continuous change in social structure and economic organization migration has been responsible for relocating cultures from the Old world to the New various sections of geographic territories have adjusted to the overall American culture without losing their individual distinctiveness and federalism has shaped the United States political and social organization *The Metropolitan Frontier and American Politics* was begun in the late 1950s under the auspices of the University of Illinois Institute of Government and Public Affairs as a study of the eight lesser metropolitan areas in Illinois What started out as a design for community maps of each area with the intent to outline their particular political systems led to a major study of metropolitan cities of the prairie the heartland area between the Great Lakes and the Continental Divide with an examination of the processes that have shaped American politics The distinctive features of the geographic areas that Elazar discovered can best be understood as reflections of the differences in cultural backgrounds of their respective settlers Proper understanding of these communities therefore requires an examination of their place in the federal system the impact of frontier and section upon them and a study of the cultures that inform them as civil communities The volume is consequently divided into three parts Cities Frontiers and Sections Streams of Migration and Political Culture and Cities States and Nation each of which explores Elazar

s concerns in discovering the interrelationship between the cities of the frontier and American politics A prequel to The Closing of the Metropolitan Frontier The Metropolitan Frontier and American Politics will be of great interest to students of politics American history and ethnography **Political Images and Realities** Donald R. Hollywood As Historian Peter C. Rollins,2021-03-17 A commendably comprehensive analysis of the issue of Hollywood s ability to shape our minds invigorating reading Booklist Film has exerted a pervasive influence on the American mind and in eras of economic instability and international conflict the industry has not hesitated to use motion pictures for propaganda purposes During less troubled times citizens ability to deal with political and social issues may be enhanced or thwarted by images absorbed in theaters Tracking the interaction of Americans with important movie productions this book considers such topics as racial and sexual stereotyping censorship of films comedy as a tool for social criticism the influence of great men and their screen images and the use of film to interpret history Hollywood As Historian benefits from a variety of approaches Literary and historical influences are carefully related to The Birth of a Nation and Apocalypse Now two highly tendentious epics of war and cultural change How political beliefs of filmmakers affected cinematic styles is illuminated in a short survey of documentary films made during the Great Depression Historical distance has helped analysts decode messages unintended by filmmakers in the study of The Snake Pit and Dr Strangelove Hollywood As Historian offers a versatile thought provoking text for students of popular culture American studies film history or film as history Films considered include The Birth of a Nation 1915 The Plow that Broke the Plains 1936 The River 1937 March of Time 1935 1953 City Lights 1931 Modern Times 1936 The Great Dictator 1940 The Grapes of Wrath 1940 Native Land 1942 Wilson 1944 The Negro Soldier 1944 The Snake Pit 1948 On the Waterfront 1954 Dr Strangelove 1964 Who s Afraid of Virginia Woolf 1966 and Apocalypse Now 1979 Recommended reading for anyone concerned with the influence of popular culture on the public perception of history American Journalism Christopher Marlowe Richard Wilson,2014-07-15 Christopher Marlowe has provoked some of the most radical criticism of recent years There is an elective affinity it seems between this pre modern dramatist and the post modern critics whose best work has been inspired by his plays The reason suggested by this collection

of essays is that Marlowe shares the post modern preoccupation with the language of power and the power of language itself As Richard Wilson shows in his introduction it is no accident that the founding essays of New Historicism were on Marlowe nor that current Queer Theorists focus so much on his images of gender and homosexuality Marlowe staged both the birth of the modern author and the origin of modern sexual desire and it is this unique conjunction that makes his drama a key to contemporary debates about the state and the self from pornography to gays in the military Gay Studies Cultural Materialism New Historicism and Reader Response Criticism are all represented in this selection which the introduction places in the light not only of theorists like Althusser Bataille and Bakhtin but also of artists and writers such as Jean Genet and Robert Mapplethorpe Many of the essays take off from Marlowe s extreme dramatisations of arson cruelty and aggression suggesting why it is that the thinker who has been most convincingly applied to his theatre is the philosopher of punishment and pain Michel Foucault Others explore the exclusiveness of this all male universe and reveal why it remains so offensive and impenetrable to feminism For what they all make disturbingly clear is Marlowe s violent untamed difference from the clichés and correctness of normative society

*The World War II Bond Campaign* Lawrence R. Samuel, 2025-02-04 How America s greatest marketing triumph in World War II shaped race ethnicity and class in modern America The World War II Bond Campaign is a history of the World War II bond drive led by the federal government an effort called the most successful marketing operation in history By the war s end some 85 million Americans had spent 186 billion in an unprecedented outpouring of patriotism that contributed to the military victory and the prosperity of the following decades The FDR administration used bonds to raise capital to support the war and promote national unity within the context of the nation s increasingly pluralistic society as the melting pot theory was retired African Americans Euro Americans and

labor union members enthusiastically bought bonds to express national loyalty but also to demonstrate racial ethnic or class pride a reflection of their dualistic or hyphenated identities Drawing on various primary sources The World War II Bond Campaign illustrates how the Treasury Department s multicultural marketing strategies tapped into Americans aspirations alongside their patriotic impulses Citizens of all social and economic backgrounds eagerly responded to what can be seen as the selling of America making the subject an ideal lens to view national identity at a critical moment in the country s history The author contends that the drive s success helped pave the way for the emergence of both the civil rights movement and the vigorous consumer culture of the postwar years

**The Authoritarian Personality** Theodor Adorno, 2019-08-27 What makes a fascist Are there character traits that make someone more likely to vote for the far right The Authoritarian Personality written in the shadow of Fascism and the Holocaust looked to analyse the rise of Fascism in Europe through the specific psychological traits that make people prone to authoritarianism Based on extensive empirical studies of Americans conducted by a team which included the leading member of the Frankfurt School Theodor Adorno The Authoritarian Personality ranked a range of character traits on what it called the F scale F for fascist These included conventionalism anti intellectualism superstition and occultism power and toughness destructiveness and cynicism projectivity and exaggerated concerns over sex The Authoritarian Personality is not only one of the most influential works of social psychology ever written it also marks a milestone in the development of Adorno s thought showing him grappling with the problem of fascism and the reasons for Europe s turn to reaction Over half a century later and with the rise of right wing populism and the reemergence of the far right in recent years this hugely influential study remains as insightful and relevant as ever
