Hidden Impact: What You Need to Know for the Next Disaster: A Practical Mental Health Guide for Clinicians Frederick J. Stoddard Jr., Craig L. Katz, Joseph P. Merlino, 2010-11-15 *Hidden Impact* What You Need to Know for the Next Disaster guides primary care clinicians in preparing and responding effectively to future disasters based on current knowledge from the growing field of disaster mental health. Written by nine expert disaster psychiatrists, this handbook is organized into three major sections: Preparation, Assessment, and Interventions. The first section, Preparation, covers the disaster response system, self care, and getting involved. The second section, Assessment, provides assessment scales for screening for mental health issues, suicidality issues in children and families, special populations, and bereavement. The third section, Interventions, aims to provide therapeutic guidance through psychological first aid, psychosocial interventions, psychopharmacology, collaborative care, and international perspectives.

Treating Complex Traumatic Stress Disorders in Children and Adolescents Julian D. Ford, Christine A. Courtois, 2013-07-12 With contributions from prominent experts, this pragmatic book takes a close look at the nature of complex psychological trauma in children and adolescents and the clinical challenges it presents. Each chapter shows how a complex trauma perspective can provide an invaluable unifying framework for case conceptualization, assessment, and intervention amidst the chaos and turmoil of these young patients' lives. A range of evidence-based and promising therapies are reviewed and illustrated with vivid case vignettes. The volume is grounded in clinical innovations and cutting edge research on child and adolescent brain development, attachment, and emotion regulation, and discusses diagnostic criteria including those from DSM IV and DSM 5. See also Drs Ford and Courtois's edited volume *Treating Complex Traumatic Stress Disorders in Adults*, Second Edition, and their authored volume *Treatment of Complex Trauma: A Sequenced Relationship Based Approach*.

Menopause Rebekah Wang-Cheng, Joan M. Neuner, Vanessa M. Barnabei, 2007 *Menopause* is a comprehensive resource for the care and treatment of menopausal and postmenopausal women. Explores menopause from a number of different perspectives and familiarizes clinicians with the medical issues associated with menopause, including physiology, symptomatology, risk factors, the medical evaluation, and hormone therapy and other medical treatments. Addresses the major symptoms experienced by the menopausal woman, like hot flashes, genitourinary difficulties, sexual concerns, mood, and memory issues, and their management. Focuses on disease prevention, educating women on cardiovascular disease, preservation of bone density, meeting nutritional needs, and cancer screening. Discusses hormone therapy, its risks and benefits, as well as prescribing method.

The Psychobiology of Trauma and Resilience Across the Lifespan Douglas L. Delahanty,2008-09-05 Research has suggested that childhood experiences confer risk resilience for reactions to trauma in adulthood and predictors and correlates of posttraumatic stress disorder PTSD appear to differ developmentally Research in PTSD has typically been conducted by either child or adult researchers with relatively little overlap or communication between the two camps Developmental models of PTSD are necessary to fully understand the complex constellation of responses to trauma across the lifespan Such models can inform study designs and lead to novel developmentally appropriate interventions To this end this book is organized in such a way as to present and integrate research into child adult and older adult trauma samples in an attempt to culminate in a testable model of PTSD risk and resilience across the lifespan Each author incorporates a developmental slant to their individual chapter and the chapters are organized to highlight potential differences in our understanding of risk and resiliency between children and adults Initial chapters concerning pre and peri traumatic risk factors for PTSD lead into chapters reviewing specific risk and resilience factors in adults and children Additional chapters focus on the impact of childhood trauma on adult functioning and the biology of PTSD in children adults and older adults As PTSD rarely occurs in a pure form specific chapters focus on the impact of comorbid disorders in our understanding of PTSD and the final chapters consider both psychosocial and pharmacological treatments for PTSD in children and adults

Humanitarianism and Mass Migration Marcelo Suarez-Orozco,2019-01-08 The world is witnessing a rapid rise in the number of victims of human trafficking and of migrants voluntary and involuntary internal and international authorized and unauthorized In the first two decades of this century alone more than 65 million people have been forced to escape home into the unknown The slow motion disintegration of failing states with feeble institutions war and terror demographic imbalances unchecked climate change and cataclysmic environmental disruptions have contributed to the catastrophic migrations that are placing millions of human beings at grave risk Humanitarianism and Mass Migration fills a scholarly gap by examining
