The genre really took off following the explosion of furry fandom in the 21st century with talking animals featuring in everything from science fiction to fantasy to LGBTQ coming-out stories. In his lifetime, Fred Patten (1940-2018), one of the founders of furry fandom and a scholar of anthropomorphic animal literature, authored hundreds of book reviews that comprise a comprehensive critical survey of the genre. This selected compilation provides an overview from 1784 through the 2010s, covering such popular novels as *Watership Down* and *Redwall* along with forgotten gems like *The Stray Lamb* and *Where the Blue Begins* and science-fiction works like *Sundiver* and *Decision at Doona*. **The Cambridge Siren** Jim Kelly, 2025-03-20 Autumn 1941. The third year of war, and still the siren sounds driving the people of Cambridge from their beds to trudge to one of the city's crowded bomb shelters. At dawn, the body of a young man is found in a shadowy corner. Everything points to suicide, but Detective Inspector Eden Brooke has his doubts: given the unidentified man has a suspiciously tropical suntan and the detective's office telephone number scrawled on the back of his hand, did the victim know his life was in danger? Brooke's caseload doubles when a local factory making submarine periscopes discovers it has a saboteur on the workforce. The city's police are at full stretch. Then two more men are found dead in the city's shelters. A blackout killer is on the loose. The trail leads Brooke to the university, a laboratory which hides a brutal secret and the key to a startling mystery. **Writing and Selling Your Mystery Novel Revised and Expanded Edition** Hallie Ephron, 2017-01-13 A Mystery Writers of America Edgar Award Finalist for Best Critical Biographical Work. Christ,2022-09-20 Taking its cues from both classical and post classical narratologies this study explores both forms and functions of the representation of dementia in Anglophone fictions Initially dementia is conceptualised as a narrative epistemological paradox The more those affected know what it is like to have dementia the less they can tell about it Narrative fiction is the only discourse that provides an imaginative glimpse at the subjective experience of dementia in language The narratological modelling of four narrative modes elaborates how the paradox becomes productive in fiction Depending on the narrative perspective taken but also on the type of narration the technique for representing consciousness and the epistemic strategy of narrating dementia the respective narrative modes come with different prerequisites and possibilities for narrating dementia The analysis of four contemporary Anglophone dementia fictions based on the developed model reveals their potential functions Fiction allows readers to learn about the challenges of dementia grants them perspective taking it trains cognitive flexibility and explores the meaning of memory knowledge narrative and imagination and thus also offers trajectories of a cultural coping with dementia
