in his previous career in personnel management it often appeared that he was someone who was capable of firing people without any visible displays of emotion One afternoon Bernard is summoned to the law offices of Harper and Fowler to be deposed in a questionable dismissal wrongful case of one of the district s former employees Bernard testifies and somewhat reluctantly teaches about the very real ethical dimensions of personnel management Through a story telling style that often confounds the lawyers asking scripted questions Bernard reveals for us the unvarnished truth and subtle complexities inherent in educational leadership by responding to the question that is at once both ethical and dramatic that is How shall I act

Effective Mathematics Teaching from Teachers' Perspectives, 2009-01-01

What is effective mathematics teaching? This book represents the first purposeful cross cultural collection of studies to answer this question from teachers' perspectives. It focuses particularly on how teachers view effective teaching of mathematics. Teachers' voices are heard and celebrated throughout the studies reported in this volume. These studies are drawn from many parts of the world, representing both Eastern and Western cultural traditions. The editors and authors have deliberately included the views of teachers and educators from different cultural backgrounds, taking into account that beliefs on effective mathematics teaching and its features are highly influenced by one's own culture. The book will provide readers and scholars with the stimulus to take the ideas presented and expand on them in ways that help improve mathematics education for children, teachers and researchers in both the East and the West.
