The focus of this book is on the media representations of the use of the Internet in seeking intimate connections be it a committed relationship a hook up or a community in which to dabble in fringe sexual practices Popular culture film narrative television the news media and advertising present two very distinct pictures of the use of the Internet as related to intimacy From news reports about victims of online dating to the presentation of the desperate and dateless the perverts and the deviants a distinct frame for the intimacy Internet connection is negativity In some examples however a changing picture is emerging The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news resulting in more positive spin advertising and a more even handed presence of such liaisons in narrative television and film Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender sexuality technology and the changing mores regarding intimacy **The Dispassionate** Kassim Hariri, 2017-09-18 The Dispassionate follows the life of an individual who has been destined to a disastrous fate If hell be taken through his lowest point emotionally physically and telepathically forced to draw upon past experiences will he be able to sculpt an alleviating and paradisiacal existence Will he

copies it equals or even exceeds MAD in displaying Kurtzman's creative genius. Humbug was unique in that it was actually published by the artists who created it. Kurtzman and his cohorts from MAD: Will Elder, Jack Davis, and Al Jaffee were joined by universally acclaimed cartoonist Arnold Roth. With no publisher above them to rein them in, this little band of creators produced some of the most trenchant and engaging satire of American culture ever to appear on American newsstands.

Sex in Language Eliecer Crespo-Fernández, 2015-08-27 Metaphor has long provided a rich way to speak about the unspeakable, to refer to delicate issues. Sex is one such area. This book follows a cognitive linguistic and relevance theoretic approach to the language of sex, considering metaphor as a bridge that brings together mind and language. It does this through the analysis of the antithetical mechanisms of verbal mitigation and offence. These two mechanisms are more commonly known as euphemism and its lesser-known companion term dysphemism. The volume reflects on the social and communicative functions that sexual metaphors perform in a sample of almost two hundred postings taken from internet forums. How do people think about sex? How do people avoid talking about sex? How do people paraphrase sexual topics? It offers an account of how real language users understand sexual taboo in present-day English and also a great grounding in manual corpus work on a qualitative level.

Sex Pots Paul Mathieu, 2003 Over the past twenty years, debates about pornography have raged within feminism and beyond. Throughout the 1970s, feminists increasingly addressed the problem of men's sexual violence against women, and many women reduced the politics of men's power to questions about sexuality. By the 1980s, these questions had become more and more focused on the issue of pornography, now a metaphor for the menace of male power. Collapsing feminist politics into sexuality and sexuality into pornography has not only caused some of the deepest splits between feminists but made it harder to think clearly about either sexuality or pornography, indeed about feminist politics more generally. This provocative collection by well-known feminists surveys these arguments and, in particular, asks why recent feminist debates about sexuality keep reducing to questions of pornography.

The Culture of Love in China and Europe Paolo Santangelo, Gábor Boros, 2020-01-13 In *The Culture of Love in China and Europe*, Paolo Santangelo and Gábor Boros offer a survey of the cults of love developed in the history of ideas and literary production in China and Europe between the 12th and early 19th century. They describe parallel evolutions within the two cultures and how innovatively these independent civilisations developed their own categories and myths to explain, exalt, but also control the emotions of love and their behavioural expressions. The analyses contain rich materials for comparison, point out the universal and specific elements in each culture, and hint at differences and resemblances without ignoring the peculiar beauty and attractive force of the texts cultivating love.

Joy of the Worm Drew Daniel, 2022-05-02 Consulting an extensive archive of early modern literature, *Joy of the Worm* asserts that voluntary death in literature is not always a matter of tragedy.
