Good Strategy Bad Strategy :

Good Strategy Bad Strategy Richard Rumelt, 2011-07-19 Good Strategy Bad Strategy clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action oriented strategy for the real world. Developing and implementing a strategy is the central task of a leader. A good strategy is a specific and coherent response to and approach for overcoming the obstacles to progress. A good strategy works by harnessing and applying power where it will have the greatest effect. Yet Rumelt shows that there has been a growing and unfortunate tendency to equate Mom and apple pie values, fluffy packages of buzzwords, motivational slogans, and financial goals with strategy. In Good Strategy Bad Strategy, he debunks these elements of bad strategy and awakens an understanding of the power of a good strategy. He introduces nine sources of power ranging from using leverage to effectively focusing on growth that are eye opening yet pragmatic tools that can easily be put to work on Monday morning and uses fascinating examples from business, nonprofit, and military affairs to bring its original and pragmatic ideas to life. The detailed examples range from Apple to General Motors, from the two Iraq wars to Afghanistan, from a small local market to Wal-Mart, from Nvidia to Silicon Graphics, from the Getty Trust to the Los Angeles Unified School District, from Cisco Systems to Paccar, and from Global Crossing to the 2007-08 financial crisis. Reflecting an astonishing grasp and integration of economics, finance, technology, history, and the brilliance and foibles of the human character, Good Strategy Bad Strategy stems from Rumelt's decades of digging beyond the superficial to address hard questions with honesty and integrity. Good Strategy / Bad Strategy Richard

Rumelt, 2017-09-07 Even though everyone is talking about it, there is no concept in business today more muddled than strategy. Richard Rumelt, described by McKinsey Quarterly as a giant in the field of strategy, and strategy's strategist, tackles this problem head-on in a jargon-free explanation of how to develop and take action on strategy in business, politics, and beyond. Rumelt dispels popular misconceptions about strategy such as confusing it with ambitions, visions, or financial goals by very practically showing that a good strategy focuses on the challenges a business faces and providing an insightful new approach for overcoming them. His sharp analysis and his brilliant, bold style make his book stand out from its competitors—something that Rumelt himself says is crucial. Rumelt has always challenged dominant thinking; ever since in 1972 he was the first person to uncover a statistical link between corporate strategy and profitability, and this is his long-awaited tour de force.

How leaders can take the moral risks necessary to create masterpieces: admirable, distinctive and high achieving businesses that create meaningful lives for customers, employees and themselves. In *Leadership as Masterpiece Creation*, Charles Spinosa, Matthew Hancocks and Haridimos Tsoukas show how the humanities can help leaders create profitable masterpiece organizations. Such organizations, they assert, are ones that possess the emotional and moral sensibilities of an artist, the wisdom of a statesperson and the technical know-how of commerce. The authors draw on the works of Nietzsche, Heidegger, Bernard Williams, Shakespeare and Machiavelli to conceptualize moral risk taking and then on the actions of Churchill, Madam C J Walker, Anita Roddick, Jeff Bezos and others to show how the humanities can help create admirable businesses today. As management consultants and educators steeped in the humanities themselves, the authors discuss their experiences helping business leaders achieve successful masterpieces that bring good lives to many. After describing our contemporary business environment and examples of leaders who have created masterpiece organizations, the book turns to the basic skills of masterpiece creation: managing moods, building trust, listening for difference and speaking truth to power. Then come the
