Christopher Isherwood, 1985 English Modernism, National Identity and the Germans, 1890-1950 Dr Petra Rau, 2013-04-28 This is the first systematic study to trace the way representations of Germanness in modernist British literature from 1890 to 1950 contributed to the development of English identity Petra Rau examines the shift in attitudes towards Germany and Germans from suspicious competitiveness in the late Victorian period to the aggressive hostility of the First World War and the curious inconsistencies of the 1930s and 1940s These shifts were no simple response to political change but the result of an anxious negotiation of modernity in which specific aspects of Englishness were projected onto representations of Germans and Germany in English literature and culture While this incisive argument clarifies and deepens our understanding of cultural and national politics in the first half of the twentieth century it also complicates current debates surrounding race and otherness in cultural studies Authors discussed include major figures such as Conrad Woolf Lawrence Ford Forster and Bowen as well as popular or less familiar writers such as Saki Graham Greene and Stevie Smith Accessibly written and convincingly argued Rau's study will not only be an important book for scholars but will serve as a valuable guide to undergraduates working in modernism literary history and European cultural relations Where Joy

unites essays on world literature literature in the context of the history of ideas comparative women and gender studies aesthetics and textual analysis and literary translation and tradition *Misfit Modernism* Octavio R. González, 2020-08-31 In this book Octavio R. González revisits the theme of alienation in the twentieth century novel identifying an alternative aesthetic centered on the experience of double exile or marginalization from both majority and home culture This misfit modernist aesthetic decenters the mainstream narrative of modernism which explores alienation from a universal and existential perspective by showing how a group of authors leveraged modernist narrative to explore minoritarian experiences of cultural nonbelonging Tying the biography of a particular author to a close reading of one of that author's major works González considers in turn Nella Larsen's *Quicksand* Wallace Thurman's *The Blacker the Berry* Jean Rhys's *Quartet* and Christopher Isherwood's *A Single Man* Each of these novels explores conditions of maladjustment within one of three burgeoning cultural movements that sought representation in the greater public sphere the New Negro movement during the Harlem Renaissance the 1920s Paris expatriate scene and the queer expatriate scene in Los Angeles before Stonewall Using a methodological approach that resists institutional taxonomies of knowledge González shows that this double exile speaks profoundly through largely autobiographical narratives and that the novels' protagonists challenge the compromises made by these minoritarian groups out of an urge to assimilate into dominant social norms and values Original and innovative *Misfit Modernism* is a vital contribution to conversations about modernism in the contexts of sexual identity nationality and race Moving beyond the debates over the intellectual legacies of intersectionality and queer theory González shows us new ways to think about exclusion

Decadences - Morality and Aesthetics in British Literature Paul Fox, 2012-02-10 This collection seeks to examine the intersections of aesthetics and morality of what Decadence means to art and society at various moments in British literature The inclination toward either the artistic or social perspective in each essay has been rendered more straightforwardly by employing capitalization for aesthetic Decadence and the lower case to illustrate moral decadence Both artistic and social values are inflected by their histories and as time passes so the definition of what it means to be Decadent alters The very ideas of the decline from a higher standard of social malaise of aesthetic ennui all presume certain facts about the past the present and the linear nature of time itself To reject the past as a given and to relish the subtleties of present nuance is the beginning of Decadence Purportedly decadent artists focused upon the fleeting present ascribed value to experiencing the aesthetic moment in its purest form and it was precisely due to this focus upon living in and for the moment that society often responded by expressing moral contempt for the perceived hedonism of art The aesthetic rejection of contemporary value added to the conflict between the literary and social inflections of Decadent interpretation The truly decadent was condemned by artists as the stranglehold society maintained on individual interpretation and the interpretation of oneself This conflict underlies the range of essays in the collection *Literature and Sound Film in Mid-Century Britain* Lara Ehrenfried, 2025-03-27 What happened to cinema and literature when synchronized

sound was introduced to the film industry in the late 1920s *Literature and Sound Film in Mid Century Britain* studies the paths of film and text following this event It asks how British cinema responded to the introduction of sound and how mid century literature took up the challenge of the synchronized audio visual entertainment experience offered by this media change By examining the technological and industrial histories of film and its narrative strategies and by drawing links to twentieth century literary culture this study offers a new way of approaching mid century writing and its media ecology Developing innovative audio visual close readings this book offers a multi sensory multi media approach that reframes the relationships between cinema and literature in the twentieth century The study addresses a wide range of film genres such as musical film screwball comedy the thriller documentary and melodrama alongside the writings of a large group of authors including Elizabeth Bowen Patrick Hamilton Evelyn Waugh Lewis Grassie Gibbon Henry Green Jean Rhys Ivy Compton Burnett and Eric Ambler It covers an expansive range of films and texts of the 1930s and 1940s and invites readers to comprehensively rethink mid century media culture by arguing for a growing synergy of film and text
