Deconstructing Masculinity: Interrogating the Role of Symbolism in Gender Performativity Lauren Dundes ,Michael Macaluso,2024-09-19 Progress towards gender parity is hindered by unconscious ways that hypermasculinity is valorized at a symbolic level By deconstructing how social and textual phenomena as well as social structures contribute to gender performativity we can elucidate hard to discern patterns that perpetuate hegemonic masculinity The subliminal elevation of symbols of hypermasculinity excludes both women and non gender conforming men By delving into these symbolic meanings that operate subliminally we can more effectively debunk beliefs that real men fall within narrow parameters of masculinity There remains much to explore in terms of hidden pressures for men to constrain their expression of emotions project an appearance of hardness and equate violence with power to name just a few persistent facets of toxic masculinity While abstract forms of inculcating hypermasculinity are difficult to identify interrogating their role in masculine performativity will result in a more comprehensive understanding of impediments to gender equality
