highest levels of business and government Amid the backdrop of the breathtaking desert landscape Unreal City shows five cultures colliding Hopi Navajo global energy corporations Mormons and US government agencies resulting in a battle over resources and the future of the West Las Vegas may attract 39 million visitors a year but the tourists mesmerized by the dancing water fountains at the Bellagio don t ask where the water comes from They don t see a city with the nation s highest rates of foreclosure unemployment and suicide They don t see the astonishing drop in the water level of Lake Mead where Sin City gets 90 percent of its water supply Nies shows how the struggle over Black Mesa lands is an example of a global phenomenon in which giant transnational corporations have the power to separate indigenous people from their energy rich lands with the help of host governments Unreal City explores how and why resources have been taken from native lands what it means in an era of climate change and why in this city divorced from nature the only thing more powerful than money is water
