IEA Civic Education Study CIVED 1999 2000 IEA's ICCS remains the only large scale international study dedicated to formal and informal civic and citizenship education in school. It continues to make substantial contributions to understanding the nature of the acquired civic knowledge, attitudes and participatory skills. It also discusses in depth how a wide range of countries prepare their young people for citizenship in changing political, social and economic circumstances. The next cycle of ICCS is planned for 2022. In this book, more than 20 national representatives and international scholars from Europe, Latin America, Asia and North America assess how the processes and findings of the 2009 and 2016 cycles of ICCS and CIVED 1999 2000 have been used to improve nations' understanding of their students' civic knowledge, beliefs, attitudes, current civic related behaviors and intentions for future participation in a comparative context. There are also chapters summarizing the secondary analysis of those studies' results, indicating their usefulness for educational improvement and reflecting on policy issues. The analyses and reflections in this book provide timely insight into international educational discourse, policy, practice and research in an area of education that is becoming increasingly important for many societies.

Negative Monetary Policy Rates and Portfolio Rebalancing: Evidence from Credit Register Data Margherita Bottero, Ms. Camelia Minoiu, José-Luis Peydro, Andrea Polo, Mr. Andrea F. Presbitero, Enrico Sette, 2019-02-28. We study negative interest rate policy (NIRP) exploiting ECB's NIRP introduction and administrative data from Italy, severely hit by the Eurozone crisis. NIRP has expansionary effects on credit supply and hence the real economy through a portfolio rebalancing channel. NIRP affects banks with higher ex ante net short term interbank positions or more broadly more liquid balance sheets, not with higher retail deposits. NIRP affected banks rebalance their portfolios from liquid assets to credit, especially to riskier and smaller firms, and cut loan rates, inducing sizable real effects. By shifting the entire yield curve downwards, NIRP differs from rate cuts just above the ZLB.

*After Piketty* Heather Boushey, J. Bradford DeLong, Marshall Steinbaum, 2017-05-08. Are Thomas Piketty's analyses of inequality on target? Where should researchers go from here in exploring the ideas he pushed to the forefront of global conversation? In *After Piketty*, a cast of economists and other social scientists tackle these questions in dialogue with Piketty in what is sure to be a much debated book in its own right.

**Economic and Political Consequences of AI: Managing Creative Destruction** Günar, Altuğ, 2025-01-14. Firms that innovate on the production function by using unorthodox paths in technology are disrupting routine actions and radically

changing people's lives by innovating in a disruptive way while reinventing new ways Schumpeterian innovations change the routine and traditional business conditions by realizing a new economic equilibrium and innovation in the production function Today the use of artificial intelligence AI and AI related applications and the expansion of their areas of use cause a Schumpeterian process of creative destruction causing a destructive but at the same time creative cycle such as the use of AI within existing technologies the increase in the opportunities provided by the applications and the replacement of old and new technology Therefore today the widespread use of AI is one of the most significant technological advancements of recent times encompassing a wide range of fields and significantly changing how economies and societies operate Economic and Political Consequences of AI Managing Creative Destruction investigates the impact of AI on economics and politics Although emerging AI and technologies scare societies and existing firms and companies it is essential to research the existing uncertainty to eliminate uncertainties and reveal or discuss potential benefits and harms Covering topics such as creative destruction cyber politics and the future of employment this book is an excellent resource for computer developers technology companies businesses professionals researchers policy makers scholars academicians and more *Economics of Education* George Psacharopoulos, 2014-05-17 Economics of Education Research and Studies reviews key topics in the field of economics of education since 1960s This book is organized into 12 parts Part I and Part II focus on the supply side of human capital and narrower aspects of human capital creation by means of education Subsequent parts look at the benefits of education relationship between education and employment controversies in the field of economics of education issues of manpower planning and methodology for empirically analyzing the issues in the economics of education The last two parts address the costs of education with emphasis on cost function analysis and on the financing of education Essentials of Human Behavior Elizabeth D. Hutchison, Leanne Wood, 2025-06-18 Essentials of Human Behavior by Elizabeth D Hutchison and Leanne Wood integrates the key framework of time person and environment into a single streamlined text for single or double semester courses Drawn from Hutchison's best selling Dimensions of Human Behavior texts this Fourth Edition is updated to address equity and inclusion trauma and resilience environmental justice and gender identity and expression With a multidimensional approach it helps students connect human behavior theories and research to their applications in social work engagement assessment intervention and evaluation across all levels of practice **The role of the locations of public sector varietal development activities on agricultural productivity: Evidence from northern Nigeria** Nasir, Abdullahi Mohammed, Takeshima, Hiroyuki, 2017-07-21 Despite the importance of location specific adaptive crop breeding research past reforms of breeding systems in Nigeria have focused more on centralizing the breeding activities into fewer locations This has been based partly on the premise that such research systems can still effectively meet the need for a diverse set of varietal technologies that are suitable for different agroecological conditions through the use of numerous outstations and multilocal trials regardless of the locations of the headquarters or the outstations where breeders are

located. However, little empirical evidence exists to support this premise. Using panel data for agricultural households in northern Nigeria as well as spatial data on agroecological factors, this study fills this knowledge gap. Specifically, it empirically shows that agricultural productivity and technical efficiency at farm household level is significantly and positively affected by similarity between the agroecological conditions of the locations of these households and where major crop breeding institutes are headquartered in Nigeria, namely Maiduguri, Kano, Zaria, Badeggi, Ibadan, and Umudike, after controlling for the agroecological conditions and various relevant household characteristics of these households. These findings suggest that where improved varieties are developed or evaluated affects agricultural productivity and technical efficiency in different locations. Overall, agricultural productivity in Nigeria can be significantly increased not simply by increasing support for public sector varietal development but by doing so in a manner that increases the similarity in agroecological conditions between areas where crop breeding is conducted and the areas where farm households produce those crops.
