Academic Language offers strategies to integrate language and content learning while fostering student engagement, voice, and agency. Dedicated chapters on academic language for Language Arts, Mathematics, Social Studies, and Science highlight the dimensions of disciplinary language for each subject and provide strategies for moving learning forward with multilingual learners. Additional features include Stop and Think prompts to help educators connect new ideas with their instructional settings. Prompts at the end of each chapter encourage deeper thinking and application of the material. Multilingual examples mirror the varied classroom settings in the U.S. and beyond.
