**Minerals Yearbook** Geological Survey, Interior Department, Mines Bureau, 2019-02-15 This volume covering metals and minerals contains chapters on approximately 90 commodities In addition this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary **Bank Recovery and Resolution** Sven Schelo, 2020-10-14 Bank Recovery and Resolution Second Edition Sven Schelo Since 2008 enormous efforts have been made worldwide to draft rules to prevent a reoccurrence of the devastating financial events of that year In the process bank business has been laid open to intense public and government scrutiny and regulation of banking has grown to spectacular proportions Prominent among the measures taken is the EU Bank Recovery and Resolution Directive BRRD which together with the Single Resolution Mechanism SRM and the Single Resolution Fund constitutes a crucial new pillar in the European Banking Union Practitioners searching for orientation in what can readily be perceived as a jungle have an urgent need for a clear and systematic description and analysis of these new rules which are sure to have a massive impact on bank business from this time on not only in Europe but also wherever European business is to be found The solidly

grounded analysis in this important book sets the new rules under BRRD into their full context as cross border phenomena. With its crystal clear explanation of key provisions, procedures and triggers, the book organises a highly complex legal system into patterns and action plans that can be applied in virtually any eventuality likely to arise in cases where bank business is of central significance. Among the topics covered are the following: entities covered by BRRD, exceptions under BRRD, objective and scope of BRRD, tools, bail in, bridge bank, sale of business asset, separation asset, quality reviews, curing or mitigating the continuing problem of non performing loans, new rules as response to lack of private solutions, banks requirement to provide a minimum amount of eligible liabilities, safety buffers to protect resolution, need to be resolvable in a worst case, leverage and liquidity ratios, forced mergers, market spillover effects of recovery planning group, recovery planning effects of foreign law contracts and assets, write down of capital instruments and special problems of cross border restructuring. The presentation is enhanced by a comparative dimension which includes reference to United States and other national developments and a full scale analysis of Switzerland's regulatory response to the crisis. Given that a full seamless global system of bank recovery and resolution has not yet been found and that major banks are global players headquartered in different jurisdictions and even different continents, this book will greatly assist in the work of practitioners who must deal with cases involving international banking under the prevailing status quo. Its usefulness to officials and academics in international banking and finance law and policy who are working towards a global solution is of incalculable value.

Why Women Should Be Taken More Seriously in the Boardroom Barrie Gunter, 2017-04-21. Historically there has been a lack of parity between women and men in senior corporate roles, particularly in major companies with the biggest market capitalisation. This can be partly explained by inequalities of career opportunity and also women's self perceptions. Yet there are plenty of examples in business and other worlds, notably politics, that women can perform effectively in the highest leadership roles. Some countries have actively encouraged greater female representation on the boards of major companies. This is a positive step forward. When women join the boards of top companies, the decision making climates of these bodies can change for the better. When women are appointed as leaders of poorly performing companies, they can turn them around and convert them into success stories every bit as often as male appointees. Women have been dismissed as lacking the character for business leadership. Sometimes women are their own worst enemies and feel uncomfortable when members of their own gender act more like men. Yet self belief can strengthen their perceived suitability for top jobs. Women do need to act tougher to get to the top, but this does not mean abandoning their femininity or having a fulfilling life outside business. Why Women Should Be Taken More Seriously in the Boardroom is a useful tool for business students as well as those in the corporate world looking to gain a deeper understanding of gender balance within leadership roles.
