Language Myths and Realities Qianqian Zhang-Wu, 2021-11-15. Higher education institutions in Anglophone countries often rely on standardized English language proficiency exams to assess the linguistic capabilities of their multilingual international students. However, there is often a mismatch between these scores and the initial experiences of international students in both academic and social contexts. Drawing on a digital ethnography of Chinese international students' first semester language practices, this book examines their challenges, needs, and successes on their initial language journeys in higher education. It analyzes how they use their rich multilingual and multi-modal communicative repertoires to facilitate language across contexts in order to suggest how university support systems might better serve the needs of multilingual international students. *The School Reform Landscape Reloaded* Christopher H. Tienken, 2020-10-30. *The School Reform Landscape Reloaded* More Fear, Myths and Lies peels back the curtain of school reform to examine the tensions that exist between the democratic and equitable system of public education and the emerging dual system based on elite interests aimed at profit making and decreasing

education equity The author takes in depth and controversial look at school reform since the launch of Sputnik I Education reform events proposals and policies are examined through the lens of progressivist philosophy and critical social theory Some of the issues and policies critiqued include the neoliberal corporate influence on education the Sputnik myth A Nation At Risk standardization charter schools and other relevant topics The author provides an evidence based view of the free market reform ideas and he pierces the veil of the new reform policies to find that they are not built upon empirical evidence but instead rest solidly on foundations of myth fear and lies Ideas for a new set of reform policies based on empirical evidence and supportive of a unitary equitable and democratic system of education are presented **The Children's**
