both Chinese high schools and American higher education institutions Ma argues that these students experiences embody the duality of ambition and anxiety that arises from transformative social changes in China These students and their families have the ambition to navigate two very different educational systems and societies Yet the intricacy and pressure of these systems generate a great deal of anxiety from applying to colleges before arriving to studying and socializing on campus and to looking ahead upon graduation Ambitious and Anxious also considers policy implications for American colleges and universities including recruitment student experiences faculty support and career services
