Grade 11 History Paper 1 2014:

Narrating the Soviet Era in Russian School History Textbooks Olga Konkka, 2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917-1991. Representations of this part of Russia's past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin. This study combines research into these texts and inquiry into those who write, publish, approve or criticize them. Bringing together these perspectives provides a more complex view of school textbooks as final products of both top-down and bottom-up processes. This volume is aimed at postgraduate researchers and academics specializing in Soviet history, contemporary Russian politics and society, and history education and textbooks.

The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school, a social incubator in a largely segregated city that was highly even improbably successful throughout its 156-year existence. Established in 1855 as Central High School and reorganized in 1916, Schenley High School was a model of innovative public education and an ongoing experiment in diversity. Its graduates include Andy Warhol, actor Bill Nunn, and jazz virtuoso Earl Hines, and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather. The subject of investment as well as destructive neglect, the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt. Integrated decades before *Brown v. Board of Education*, Schenley succumbed to default segregation during the white flight of the 1970s; it rose again to prominence in the late 1980s when parents camped out in six-day-long lines to enroll their children in visionary superintendent Richard C. Wallace's reinvigorated school. Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh, officials closed the school in 2008, citing over 50 million in necessary renovations, a controversial event that captured national attention. Schenley alumnus Jake Oresick tells this story through interviews, historical documents, and hundreds of first-person accounts drawn from a community indelibly tied to the school. A memorable, important work of local and educational history, his book is a case study of desegregation, magnet education, and the changing nature and legacies of America's oldest public schools.

Social Studies Education in East Asian Contexts Kerry J. Kennedy, 2020-07-28 The book explores the state of social studies education within selected East Asian

societies and provides some insights into distinctive classroom practices In an increasingly volatile and unpredictable world the education of young people who both understand the contexts in which they are growing up and see the need for engaging with them is a top priority This task falls to social studies education which carries the responsibility for inducting young people into their social world and helping them to see the role they can play within it This is particularly important in East Asia where strong economic growth long held cultural values and diverse political systems create an environment that challenges young people on multiple fronts This book with its team of regional authors shows how different societies in the region are dealing with these challenges and what can be expected from future citizens The book will appeal to policy makers researchers and teachers interested in the current state of social studies education in East Asian societies *Critical Comprehension [Grades K-6]* Katie Kelly, Lester Laminack, Vivian Vasquez, 2023-01-25 Because high level comprehension cannot be divorced from wide ranging texts To be literate is to think through multiple perspectives exploring diverse texts and using the power of story to give students the life skills to discuss just about anything with critical curiosity Critical Comprehension transforms this vital work into an accessible three step lesson process Using picture books multimodal texts and thoughtfully framed questions each differentiated lesson expands students understanding of a text through First read the movie read during which the text is read without interruption Second read The teacher poses questions that probe deeper meanings through interaction with the text to summarize name and highlight issues analyze and infer to make more informed decisions about what to believe and what to question Third read Harnessing students curiosities the class revisits the text to talk back to theme symbols central idea or social cultural historical influences at work on author and audience Popular media classic novels breaking news the world s content is ready for students to absorb But are we ready to help them read it well Equipped with this resource the answer is Yes we are Burnt by Democracy Jacqueline Kennelly, 2023-11-30 Burnt by Democracy traces the political ascendance of neoliberalism and its effects on youth The book explores democracy and citizenship as described in interviews with over forty young people ages 16 to 30 who have either experienced homelessness or identify as an activist living in five liberal democracies Canada Australia New Zealand the United States and the United Kingdom Highlighting significant cuts to social and affordable housing astronomical increases in the costs of higher education and the transformation and erosion of state benefits systems Jacqueline Kennelly argues that democracy s decline is not occurring because young people are apathetic or focused on informal politics or unaware of their civic duties Rather it is because of collective misunderstanding about how democracy is actually structured how individuals learn to participate and how growing wealth inequality has undermined the capacity of those at the bottom to meaningfully advocate for changes that might improve their conditions Against a vivid and often heart breaking backdrop of stories from young people struggling to survive and thrive under conditions of ever expanding state retrenchment and inequality Burnt by Democracy makes a timely and impassioned plea for protecting and strengthening democracy by truly levelling the playing field for all

the Teaching of Legal History examines important themes in Canadian legal history through the prism of Baker's career. Inspired by topics Baker took up in his own writing, contributors use Baker's broad interests in legal culture to reflect on fundamental themes across Canadian legal history, including legal education, gender and race, technology, nation building and national identity, criminal law and marginalized populations and constitutionalism. *Law, Life and the Teaching of Legal History* offers a contemporary analysis of Canadian legal history and thoughtfully engages with what it means to honour one individual's enduring legacy in the study of law.

English Language Learners and the New Standards Margaret Heritage, Aída Walqui, Robert Linnquanti, 2020-01-15. In *English Language Learners and the New Standards*, three leading scholars present a clear vision and practical suggestions for helping teachers engage ELL students in simultaneously learning subject-area content, analytical practices and language. This process requires three important shifts in our perspective on language and language learning: from an individual activity to a socially engaged activity; from a linear process aimed at correctness and fluency to a developmental process focused on comprehension and communication; and from a separate area of instruction to an approach that embeds language development in subject-area activities. In *English Language Learners and the New Standards*, the authors clarify the skills and knowledge teachers need to integrate content knowledge and language development. Show how teachers can integrate formative assessment in ongoing teaching and learning. Discuss key leverage points and stress points in using interim and summative assessments with ELLs. Provide classroom vignettes illustrating key practices. Finally, the authors explain the theories and research that underlie their vision and examine the role of policy in shaping pedagogy and assessment for ELL students.
