

## 2024 ECONOMICS 12 MACROECONOMICS ESSAYS (P1)

### A. CIRCULAR FLOW

#### 1. Discuss in detail the markets within the FOUR-SECTOR model. (28 marks)

##### INTRODUCTION

- ✓ **Market** is the mechanism that brings buyers and sellers together to exchange goods and services. ✓✓
- ✓ Markets coordinate economic activities and determine prices of goods and services. ✓✓

##### BODY

##### PRODUCT AND FACTOR MARKETS

##### Product market/Goods/Output markets ✓

- Product market is where goods and services are exchanged for money. ✓✓
- E.g. Shoprite retailer. ✓
- These are markets for consumer goods and services. ✓✓
- **In economics a distinction is made between goods and services:**
- Goods are defined as any tangible items such as clothing, food cars that satisfy human wants or need. ✓✓
- Capital and consumer goods are traded in these markets. ✓✓
- Capital goods market are trading buildings and machinery. ✓✓
- Consumer goods markets are trading durable consumer goods, semi-durable goods and non-durable goods. ✓✓
- Services are defined as non-tangible actions e.g. wholesalers and retailer, transport and financial markets. ✓✓

##### Factor market/Resource/Input markets ✓

- Factor market is where factors of production are traded. ✓✓ e.g. labour is hired and capital is borrowed. ✓✓
- Households sell factors of production in this market. ✓✓
- These services earn wages for labour, interest for capital, rent for natural resources and profits for entrepreneurship. ✓✓
- Labour can be bought and sold in this market. ✓✓
- Factor market includes labour, property and financial markets. ✓✓
  - ✓ Product markets and factor markets are related in the sense that the demand for factor services is a derived demand. ✓✓

**An Empty Curriculum** Sandra Stotsky, 2015-02-19 Teachers cannot teach what they do not know This country has tolerated a weak licensing system for prospective teachers for decades This weak system has been accompanied by an increasingly emptier curriculum for most students depriving them of the knowledge and skills needed for self government An Empty Curriculum How Teacher Licensure Tests Lead to Empty Student Minds makes the case that the complete revision of the licensing system for prospective and veteran teachers in Massachusetts in 2000 and the construction of new or more demanding teacher licensing tests contributed significantly to the Massachusetts education miracle That miracle consisted of enduring gains in achievement for students in all demographic groups and in all regional vocational technical high schools since 2005 gains confirmed by tests independent of Massachusetts policy makers The immediate purpose of this book is to explain what Massachusetts did in 2000 to strengthen its teacher licensing and re licensing system to ensure that all teachers could teach to relatively strong K 12 standards Its larger purpose is to suggest that development of strong academic standards in all major subjects should be followed by complete revision of a state's teacher licensing system not as has been the case for several decades the development of K 12 student tests if this country wants to strengthen public education

**Leadership in Action** Jim Dueck, 2020-02-12 This book outlines how administrators in our school system can move from managerial efforts to leadership functions Identifying taxpayers as the school systems foremost client presents leaders with the critical perspective for ensuring accountability Government is the taxpayers servant and act as managers of educational funding and programs and is supported by administrators working in schools districts and regional offices A key understanding is that school is a student's place of work and current processes for evaluating and reporting their progress identifies them as the most accountable workers in our culture Taxpayers are better served when educators and government are held accountable by similar assessment processes Accountability is enhanced when power for selecting teachers and schools is shifted from administrators to parents and quantifiable information provides the basis for these decisions Ensuring that students have their learning assessed consistently guarantees fairness to students and provides critical information for parents and taxpayers Proven leadership strategies for ensuring accountability and superior levels of performance are presented for each administrative level

**Meritocracy, Growth, and Lessons from Italy's Economic Decline**

Lorenzo Codogno, Giampaolo Galli, 2022-09-05 This book draws lessons on the importance of meritocracy for economic growth by analysing Italy's economic decline in the past few decades. Connections rather than merit are a long standing feature of the Italian elites even in the corporate sector. This became a significant problem when Italy's economy could no longer grow due to imitation devaluation and public debt and faced the challenges of becoming a frontier knowledge based open economy. This book uses international comparisons on social capital governance, the role of the public sector, efficiency of the judiciary, education, gender and social inequality, social mobility, corporate standards, financial structures and more to evaluate Italy's economic performance. It argues that the arrogance of mediocrity is more damaging than that of meritocracy. Italy experienced an economic miracle after the Second World War and it is still an advanced economy and a member of the G7. Until the 1960s it seemed destined to catch up with the best performing countries. Then the growth engine stopped, its debt skyrocketed and Italy became a weaker member of the Eurozone. Many other countries in the world have heavy historical legacies and low social capital and many others have to make the jump from imitation led growth to endogenous growth. The lessons drawn from studying Italy's case can therefore have important international applications. Productivity and Organizational Management

Carolina Machado, J. Paulo Davim, 2017-04-10 Effective work practices and good employee relations are a real necessity of nowadays organizations as they can help to reduce absenteeism, turnover, organizational costs, conducting to high levels of commitment, effectiveness, performance as well as productivity. Addressing these questions, this book focuses on the implications of changes in productivity and organizational management, exploring models, tools and processes. *Born to Choose*

John H Falk, 2017-09-05 *Born to Choose* is John H Falk's compelling account of why and how we make the endless set of choices we do every second of every day of our lives. Synthesizing research from across the biological and social sciences, Falk argues that human choice making is an evolutionarily ancient and complex process. He suggests that all our choices are influenced by very basic and early evolving needs and that ultimately each choice is designed to support survival in the guise of perceived well being. This engaging book breaks new intellectual ground and enhances our understanding not just of human choice making but human behavior overall. Keynes and his Contemporaries

Atsushi Komine, 2014-05-09 This book examines how the Cambridge School economists such as J M Keynes constructed revolutionary theories and advocated drastic policies based on their ideals for social organizations and their personal characteristics. Although vast numbers of studies on Marshall, Keynes and Marshallians have been published, there have been very few studies on the Keynesian Revolution or Keynes's relevance to the modern world from archival and intellectual viewpoints which focus on Keynes as a member of the Cambridge School. This book approaches Keynes from three directions: person, time and perspective. The book provides a better understanding of how Keynes struggled with problems of his time and it also offers valuable lessons on how to survive fluctuating global capitalism today. It focuses on eight key economists as a group in a public sphere rather than as a school, a unified theoretical denominator and clarifies

their visions and the widespread beliefs at the time by investigating their common motivations lifestyles values and habits

**Counseling 21st Century Students for Optimal College and Career Readiness** Corine Fitzpatrick,Kathleen Costantini,2022-02-17 This second edition presents an updated action based curriculum for high school counselors that will meet the needs of 21st century students helping to foster their growth and engage them in learning what they need to succeed beyond high school This book takes a comprehensive developmental approach focusing on 9th 12th grade students rather than solely on those in 11th and 12th grade It provides a model for developing and enhancing a successful college advising office as well as essential advice on methods of working with parents Specific topics discussed include successful transition to 9th grade using technology in the college and career advising process assisting and advising students in college research and application and helping seniors make successful transitions to college There is also a special focus on students in urban and rural schools to enable them to have the same enriched experiences in their college and career advising program as those students in private and suburban schools The curriculum is geared for use by school counselors college advisors and readers in graduate counseling student courses

*Inequality in America* Stephen M. Caliendo,2018-05-15 Why does inequality have such a hold on American society and public policy And what can we as citizens do about it *Inequality in America* takes an in depth look at race class and gender based inequality across a wide range of issues from housing and education to crime employment and health Caliendo explores how individual attitudes can affect public opinion and lawmakers policy solutions He also illustrates how these policies result in systemic barriers to advancement that often then contribute to individual perceptions This cycle of disadvantage and advantage can be difficult though not impossible to break Representing and What Can I Do feature boxes throughout the book highlight key public figures who have worked to combat inequality and encourage students to take action to do the same The second edition has

been thoroughly revised to include the most current data and to cover recent issues and events like the 2016 elections and the Black Lives Matter movement It now also includes a brand new chapter on crime and criminal justice and an expanded discussion of immigration Concise and accessible Inequality in America paves the way for students to think critically about the attitudes behaviors and structures of inequality
