Science Education in East Asia Myint Swe Khine, 2015-09-03 This book presents innovations in teaching and learning science, novel approaches to science curriculum, cultural and contextual factors in promoting science education, and improving the standard and achievement of students in East Asian countries. The authors in this book discuss education reform and science curriculum changes and promotion of science and STEM education, parental roles and involvement in children's education, teacher preparation and professional development, and research in science education in the context of international benchmarking tests to measure the knowledge of mathematics and science, such as the Trends in Mathematics and Science Study (TIMSS) and achievement in science, mathematics, and reading like Programme for International Student Assessment (PISA). Among the high-achieving countries, the performance of the students in East Asian countries, such as Singapore, Taiwan, Korea, Japan, Hong Kong, and China (Shanghai), are notable. This book investigates the reasons why students from East Asian countries consistently claim the top places in each and every cycle of those studies. It brings together prominent science educators and researchers from East Asia to share their experience and findings, reflection, and vision on emerging trends, pedagogical innovations, and research-informed practices in science education in the region. It provides insights into effective educational strategies and development of science education to international readers. Educational Research R. Burke Johnson, Larry B. Christensen, 2024-09-17 Educational Research: Quantitative, Qualitative, and Mixed Approaches offers an accessible introduction to research methods. Providing an in-depth understanding of research methodologies in education, this book illustrates how to read and critically evaluate published research, how to write a proposal, construct research tools, and conduct empirical research using qualitative, quantitative, and mixed methods research approaches. **A Diversity of Pathways Through Science Education** Yann Shiou Ong, Timothy Ter Ming Tan, Yew-Jin
