Department of Education, 2015 *Re-thinking Postcolonial Education in Sub-Saharan Africa in the 21st Century* Edward Shizha, Ngoni Makuvaza, 2017-04-17 What have postcolonial Sub Saharan African countries achieved in their education policies and programmes How far have they contributed to successful attainment of the targeted 2015 Millennium Development Goals MDGs on education What were the constraints and barriers for developing an education system that appeals to the needs of the sub region Re thinking Postcolonial Education in Sub Saharan Africa in the 21st Century Post Millennium Development Goals is an attempt to demonstrate that Sub Saharan Africa has the potential and capability to provide solutions to challenges facing its desire and ability to provide sustainable education to its people To that end the contributors are academics with an African vision attempting to come up with African home grown perspectives to fill the gap created by the lapse of the MDGs as the guiding vision and framework for educational provision in Africa and beyond The book seeks to articulate and address African issues from an informed as well as objective African perspective The book is also intended to provide insights to scholars who are interested in studying and understanding the nature of postcolonial education in the Sub Saharan African region Given the objectives and themes of this book it is intended for academic scholars undergraduate and graduate students human rights scholars curriculum developers college and university academics teachers education policy makers international organisations and local and international non governmental organisations that are interested in African education policies and programmes Rethinking Postcolonial Education in Sub Saharan Africa in the 21st Century provides contemporary reflections from multiple perspectives and re positions the issue of education at the forefront of the debates on African development Lamine Diallo Associate Professor Wilfrid Laurier University Canada The book is a welcome addition to discourses and analyses on education in sub Saharan Africa with reference to a postcolonial critique and the Millennium Development Goals framework on education in Africa Michael Tonderai Kariwo PhD Instructor and Research Fellow University of Alberta Canada *Challenging Education's Function* Jim Dueck, 2023-02-14 Education occurs in a complex environment now confronted by many social issues and who is

ultimately responsible for a child's education is the fundamental issue. This book's purpose establishes how parents and not the state wear this responsibility and how they must consider and navigate through multiple factors in their choice. Political differences are ever present in America's culture. The current climate accentuates clashing perspectives involving race, religion, and individualism. While many solutions for improving educational outcomes are proposed, political obstacles appear insurmountable. An apolitical strategy providing evidence for large-scale student success culminates this review.

**Teaching the World's Teachers** Lauren Lefty, James W. Fraser, 2020-07-07 Examining teacher education in an international context, this book captures the diversity of the world's educators. Many countries confront surprisingly similar challenges in preparing K-12 educators for success, while national contexts also make for surprising differences. In *Teaching the World's Teachers*, education historians Lauren Lefty and James W. Fraser and their contributors make a convincing case for approaching these shared challenges from a more global and historically minded perspective. Written by education scholars from eleven different countries: Argentina, Brazil, Catalonia, Spain, China, England, Finland, Ghana, Israel, Singapore, South Africa, and the United States, this book provides histories of teacher education reforms between roughly 1980 and 2020. The authors show how international trends that emerged during this period collided with national and regional contexts to produce unique teacher education systems in different nations. While in some countries the embrace of markets and competition led to a deregulation of the teacher preparation field, in others teaching became a highly regulated and centralized affair. At the same time, ideas and structural models cross borders, and education leaders borrow from each other while reshaping plans in each place. Opening with a broad historical overview of global teacher education models beginning in the late eighteenth century, *Teaching the World's Teachers* argues that the field has long been characterized by cross-border connections but shaped by geopolitical hierarchies of power. In an era when teacher quality is widely recognized as one of the most important factors in a child's education, this volume encourages dialogue among teacher educators and policymakers around the world. By understanding the context and contingency of where we have been, the authors hope that readers will walk away with a more empowered sense of where we are headed in the all-important task of teaching the world's teachers. Contributors: Kwame Akyeampong, Richard Andrews, Azeem Badroodien, Maria In's G. F. Marcondes de Souza, Gustavo E. Fischman, James W. Fraser, Guangwei Hu, Arie Kizel, Jari Lavonen, Lauren Lefty, Wei Liao, Jason Loh, Silvana Mesquita, Hannele Niemi, Lily Orland, Barak Paula, Razquin, Carol Anne Spreen, Eduard Vallory, Yisu Zhou. Teacher Quality and Education Policy in India Preeti Kumar, Alexander W. Wiseman, 2021-03-31 By drawing on quantitative data and qualitative analyses of five major national education policies implemented in India over the last 15 years, this comprehensive volume explores their impact on teacher quality and perceived effectiveness, explaining how this relates to variations in student performance. Responding to a national agenda to increase the quality of the Indian teacher workforce, *Teacher Quality and Education Policy in India* critically questions the application of human capital theory to Indian education policy. Chapters

provide in depth and strategically structured analyses of five national policies including the recently approved National Education Policy NEP 2020 to see how Indian policymakers use teacher quality as a driver and measurement of education and national economic development Ultimately the text offers evidence based policy recommendations to improve teacher quality in India suggesting that while all five policies have contributed significant frameworks and recommendations for teacher quality reform they have failed to move beyond a symbolic function Given its rigorous methodological approach this book will be a valuable addition to the under researched question of education policymaking in postcolonial contexts It will be an indispensable resource not only for scholars working on policymaking in the Indian context but also for those working at the intersection of education teacher development and policymaking in developing countries **Governor's Budget**

funding The main purpose of this study is to assess how these fiscal transfers affect public funding for education and how they ultimately affect student schooling and learning outcomes Through a careful analysis of how fiscal transfers have affected education systems in different contexts the investigation develops a set of principles to support improvements in the design and implementation of transfer systems with a specific focus on the provision of education services The study is centered on seven country case studies that aim to answer a set of common research questions using a similar approach Country case studies were conducted in Brazil Bulgaria China Colombia Indonesia Sudan and Uganda The analysis shows that fiscal transfer mechanisms can improve the adequacy of public education spending reduce spending inequalities between regions and improve spending efficiency Moreover the study highlights that carefully designed and implemented transfer systems can help raise overall education outcomes and reduce education inequality This publication was funded by a grant from the Results in Education for All Children REACH trust fund at the World Bank REACH is supported by the government of Germany through the Federal Ministry for Economic Cooperation and Development the government of Norway through NORAD and the government of the United States of America through the U S Agency for International Development

*Journal of Education* ,1902      Handbook of Social and Emotional Learning Joseph A. Durlak,Celene E.

Domitrovich,Roger P. Weissberg,Thomas P. Gullotta,2016-10-26 The burgeoning multidisciplinary field of social and emotional learning SEL now has a comprehensive and definitive handbook covering all aspects of research practice and policy The prominent editors and contributors describe state of the art intervention and prevention programs designed to build students skills for managing emotions showing concern for others making responsible decisions and forming positive relationships Conceptual and scientific underpinnings of SEL are explored and its relationship to children s and adolescents academic success and mental health examined Issues in implementing and assessing SEL programs in diverse educational settings are analyzed in depth including the roles of school and district level leadership teacher training and school family partnerships      *Life Course, Happiness and Well-being in Japan* Barbara Holthus,Wolfram Manzenreiter,2017-04-21 This book investigates the connections between socio structural aspects individual agency and happiness in contemporary Japan from a life course perspective The contributors examine empirical data on the processes which impact how happiness and well being are envisioned crafted and debated in Japan across the life cycle The book discusses the shifting notions of happiness during people s lives from birth to death analyzing the age group specific experiences while taking into consideration people s life trajectories and historical changes It points also out recent developments in regards to demographic change late marriage and the changing labor market      Teachers versus the Public Paul E. Peterson,Michael Henderson,Martin R. West,2014-04-29 A comprehensive exploration of 21st Century school politics Teachers versus the Public offers the first comparison of the education policy views of both teachers and the public as a whole and reveals a deep broad divide between the opinions held by citizens and those who teach in the public schools Among the findings Divisions

between teachers and the public are wider and deeper than differences between other groups often thought to contest school policy such as Republicans and Democrats the young and the old the rich and the poor or African Americans and whites The teacher public gap is widest on such issues as merit pay teacher tenure reform impact of teacher unions school vouchers charter schools and requirements to test students annually Public support for school vouchers for all students charter schools and parent trigger laws increases sharply when people are informed of the national ranking of student performance in their local school district Public willingness to give local schools high marks its readiness to support higher spending levels and its support for teacher unions all decline when the public learns the national ranking of their local schools On most issues teacher opinion does not change in response to new information nearly as much as it does for the public as a whole In fact the gap between what teachers and the public think about school reform grows even wider when both teachers and the public are given more information about current school performance current expenditure levels and current teacher pay The book provides the first experimental study of public and teacher opinion Using a recently developed research strategy the authors ask differently worded questions about the same topic to randomly chosen segments of representative groups of citizens This approach allows them to identify the impact on public opinion of new information on issues such as student performance and school expenditures in each respondent's community The changes in public opinion when citizens receive information about school performance are largest in districts that perform below the national average Altogether the results indicate that support for many school reforms would increase if common core state standards were established and implemented in such a way as to inform the public about the quality of their local schools These and many other findings illuminate the distance between teacher opinions and those of the public at large About the Research In partnership with the Harvard Program on Education Policy and Governance and the journal Education Next authors Paul E Peterson Martin West and Michael Henderson surveyed nationally representative samples of teachers and the public as a whole annually between 2007 and 2013

**The Economics of Equity in K-12 Education** Goldy Brown III, Christos A. Makridis, 2023-02-07

Despite decades of increased state and federal funding for education student outcomes have largely deteriorated according to the 2022 NAEP exam results reading and math capabilities hit a thirty year low The emerging workforce is less prepared to handle the increasingly complex demands of the future which is likely to accelerate income inequality and stifle our nation's economic and social competitiveness Presenting the latest research on the economics of K 12 education this book makes recommendations about specific educational programming that have shown potential in increasing student outcomes for all learners focusing on human capital and practical recommendations for state and local policy makers and educational leaders

**A History of Popular Education** Sjaak Braster, Frank Simon, Ian Grosvenor, 2014-10-20 Popular Education is a concept with many meanings With the rise of national systems of education at the beginning of the nineteenth century it was related to the socially inclusive concept of citizenship coined by privileged members with vested interests in the urban society that

could only be achieved by educating the common people or in other words the uncontrollable masses that had nothing to lose In the twentieth century Popular Education became another word for initiatives taken by religious and socialist groups for educating working class adults and women However in the course of the twentieth century the meaning of the term shifted towards empowerment and the education of the oppressed This book explores the several ways in which Popular Education has been theoretically and empirically defined in several regions of the world over the last three centuries It is the result of work by scholars from Europe and the Americas during the 31st session of the International Standing Conference on the History of Education ISCHE that was organised at Utrecht University the Netherlands in August 2009 This book was originally published as a special issue of Paedagogica Historica High-Impact Tutoring in Math and ELA Nicki Newton,2025-08-18 High impact tutoring programs are ramping up across the country to address learning recovery post COVID But how do you make the most of them This invaluable book has the answers You ll find out the best ways to implement high dosage tutoring including what it is and what it is not how to overcome common challenges how to establish a program and create a collaborative team the role of the tutor relationship building onboarding and professional development high quality curriculum and study skills assessing students needs incorporating MTSS and more In addition the appendix offers a variety of diagnostic and progress monitoring tools you can use in your own setting With this indispensable resource you ll have the tools you need to help close the achievement gap so your students can thrive in math and ELA
