## **Grade Scopes For November 2014:**

### **Vocabularies of International Relations after the Crisis in Ukraine** Andrey Makarychev, Alexandra

Yatsyk, 2016-10-26 The conflict in Ukraine and Russia's annexation of Crimea has undoubtedly been a pivotal moment for policy makers and military planners in Europe and beyond. Many analysts see an unexpected character in the conflict and expect negative reverberations and a long lasting period of turbulence and uncertainty, the delegitimation of international institutions and a declining role for global norms and rules. Did these events bring substantial correctives and modifications to the extant conceptualization of International Relations? Does the conflict significantly alter previous assumptions and foster a new academic vocabulary or does it confirm the validity of well established schools of thought in international relations? Has the crisis in Ukraine confirmed the vitality and academic vigour of conventional concepts? These questions are the starting points for this book covering conceptualisations from rationalist to reflectivist and from quantitative to qualitative. Most contributors agree that many of the old concepts such as multi polarity, spheres of influence, sovereignty or even containment are still cognitively valid yet believe the eruption of the crisis means that they are now used in different contexts and thus infused with different meanings. It is these multiple conceptual languages that the volume puts at the centre of its analysis. This text will be of great interest to students and scholars studying international relations, politics and Russian and Ukrainian studies.

### **Defining Identity and the Changing Scope of Culture in the Digital Age** Novak, Alison, El-Burki, Imaani

Jamillah, 2016-05-19 Since the popularization of Internet technologies in the mid 1990s, human identity and collective culture has been dramatically shaped by our continued use of digital communication platforms and engagement with the digital world. Despite a plethora of scholarship on digital technology, questions remain regarding how these technologies impact personal identity and perceptions of global culture. *Defining Identity and the Changing Scope of Culture in the Digital Age* explores a multitude of topics pertaining to selfhood, self-expression, human interaction and perceptions of civilization and culture in an age where technology has become integrated into every facet of our everyday lives. Highlighting issues of race, ethnicity and gender in digital culture, interpersonal and computer-mediated communication, pop culture, social media and the digitization of knowledge, this pivotal reference publication is designed for use by scholars, psychologists, sociologists and graduate level students interested in the fluid and rapidly evolving norms of identity and culture through digital media.

### East Asia and Pacific Economic Update April 2014 World Bank World Bank, 2014-05-13

Developing countries in the East Asia Pacific region will see stable economic growth this year, bolstered by a recovery in high income economies and the market's modest response so far to the Federal Reserve's tapering of its quantitative easing. According to the East Asia Pacific Economic Update, developing East Asia will grow by 7.1 percent this year, largely unchanged from 2013. The report says as a result, East Asia remains the fastest growing region in the world despite a slowdown from the average growth rate of 8.0 percent from 2009 to 2013. In China, growth will ease slightly to 7.6 percent this year from 7.7 percent in 2013.

Excluding China the developing countries in the region will grow by 5.0 percent slightly down from 5.2 percent last year

*The Report: Kenya 2014* Oxford Business Group, 2014-11-13 The country has a strong private sector and received encouraging forecasts of new oil gas and water reserves which if harnessed appropriately bode well for future growth While a pending international court case resulting from prior elections provoked a measure of uncertainty the country's medium to long term economic outlook is robust With over 40% of the population under the age of 15 Kenya stands to benefit from a significant demographic dividend provided that sufficient jobs can be found when this population bulge enters the workforce The country has a reasonably sized industrial base competitive infrastructure and a large agricultural sector all of which offer opportunities for capital intensive investment  
**Funding Religious Heritage** Anne Fornerod, 2016-03-09 This collection brings together a group of highly respected law and religion scholars to explore the funding of religious heritage in the context of state support for religions The importance of this state support is that on the one hand it illustrates the potential tensions between secular and religious values whilst on the other it constitutes a relevant tool for investigating the question of the legitimacy of such financial support The funding logically varies according to the national system of state religion relationships and this is reflected in the range of countries studied including Belgium Bulgaria Denmark France Italy The Netherlands Spain Turkey and the United Kingdom The book provides clarity in the assignment of funds to religious heritage as well as seeking to define the limit of what relates to the exercise of worship and what belongs to cultural policy It is clear that the main challenge for the future lies not only in managing the dual purpose of religious monuments but also in re using these buildings which have lost their original purpose This collection will appeal to those interested in cultural heritage management as well as law and religion scholars The views expressed during the execution of the RELIGARE project in whatever form and or by whatever medium are the sole responsibility of the authors The European Union is not liable for any use that may be made of the information contained therein
