
HESI: Fundamentals Study Guide

Which instruction should the practical nurse (PN) provide to a client whose vision is being tested with a Snellen chart? - correct answer Cover one eye while reading the chart with the other.

Which client finding requires further action by the practical nurse (PN)? - correct answer The drainage tube of an indwelling catheter is looped below the client's bladder.

The practical nurse (PN) enters a client's room and finds the client on the floor after a fall. How should the PN communicate this situation to the risk management team? - correct answer Submit a completed incident report describing the situation to the unit manager.

The practical nurse (PN) is performing nasotracheal suctioning. After the client's trachea is suctioned for 15 seconds, large amounts of thick yellow secretions return. What action should the PN implement next? - correct answer Reoxygenate the client before attempting to suction again.

The practical nurse (PN) is administering a rectal suppository to a client. What action should be implemented to prevent discomfort during administration? - correct answer Allow the suppository soften before insertion.

An elderly client who attends an adult day care program and is wheelchair-mobile has redness in the sacral. Which information is most important for the practical nurse (PN) to provide? - correct answer Change positions in the chair at least every hour.

During the initial morning assessment, a client denies dysuria but reports dark amber urine. Which intervention should the practical nurse (PN) implement? - correct answer Encourage additional oral intake of juices and water.

The HIV unit nursing team, composed of the registered nurse (RN) case manager, staff RNs, and staff practical nurses (PNs), is meeting to discuss a client who has developed anorexia related to HIV medications. The client has lost 15 pounds in the previous 2 months. Which action should the team implement to continue the nursing process? - correct answer Collaborate with the client to set goals.

web apr 5 2012 an implementation of intrusion detection system using genetic algorithm mohammad sazzadul hoque md abdul mukit md abu naser bikas nowadays it is very important to maintain a high level security to ensure safe and trusted communication of information between various organizations

using genetic algorithm for network intrusion detection - Mar 23 2022

web this paper describes a technique of applying genetic algorithm ga to network intrusion detection systems idss a brief overview of the intrusion detection system genetic algorithm and related detection techniques is presented parameters and evolution process for ga are discussed in detail unlike other implementations of the

network intrusion detection using danger theory and genetic - Feb 19 2022

web feb 23 2017 a system capable to detect malicious traffic in a computer network is called an intrusion detection system ids among several techniques to attain cyber attacks computational intelligence ci stands out because of

pdf an implementation of intrusion detection system using genetic - Jun 25 2022

web mar 1 2012 the use of genetic algorithms to detect malicious computer behavior is a novel approach to the computer network intrusion detection problem presented in designing an intrusion

network intrusion detection system by using genetic algorithm - Sep 09 2023

web dec 1 2019 this paper presents a novel approach to detection of malicious network traffic using artificial neural

networks suitable for use in deep packet inspection based intrusion detection

using genetic algorithm for network intrusion detection - Jan 01 2023

web jan 1 2004 abstract and figures this paper describes a technique of applying genetic algorithm ga to network intrusion detection systems idss a brief overview of the intrusion detection system genetic
