LAB EXERCISE 5: Lizard Evolution Virtual Lab

Answer the following questions as you finish each module in the virtual lab.

MODULE 1: Introduction

At the beginning of the virtual lab, you were asked to select eight lizards from a category. What criteria did you use to select your lizards?

My criteria were: size, color, and shape of the lizards.

Did you notice your lizard's body shape?

Yes, I noticed that the lizards had different body shapes. Some were more rounded, some were more elongated, and some were more slender. I noticed that the lizards had different body shapes.

An adaptation is a structure or function that the organism has as a response to its environment. The ability to survive and reproduce is a particular adaptation. Provide one example and an explanation of an adaptation of the lizard you chose.

The adaptation of the lizard I chose was its body shape. It was a small, rounded lizard. This adaptation helped it to survive in its environment by being able to hide in the grass.

Provide one evolutionary explanation for why the lizard you chose has the adaptation (i.e., the trait) you chose. Survival is the explanation.

The adaptation of the lizard I chose was its body shape. It was a small, rounded lizard. This adaptation helped it to survive in its environment by being able to hide in the grass.
