Teaching English Literature Engelbert Thaler, 2016-04-18 Reading and discussing literature is a central topic for advanced learners of English in schools This book offers future English teachers a comprehensive introduction to this area It is easy to read and the author explains all the scientific terms you need to know in order to pass an exam on teaching English literature Thought provoking questions a wealth of extracts from literary sources and illustrative diagrams ensure that the essential contents can be quickly learned and easily remembered **Closing the Gap - Teacher to Teacher** ,1999 **The X Factor** Clair T. Berube, 2010-06-01 American science education is in trouble As the United States continues to lag behind other nations in science achievement the question is asked how can we better get our students excited and inspired by science This is the science teacher's duty The irony of the education profession is that some of the most important aspects of it are the hardest to measure and replicate The things that matter most can be the hardest to quantify Some teachers can know the different learning styles intelligences and brain preferences of their students They can know best practices of how to deliver instruction They can do all these things and more but still not convey imagination and passion for science to their students But some science teachers do inspire These special teachers seem to possess something the others don't but what is it Exceptional science teachers make us feel better about ourselves through their teaching of science and bring us to a higher quality of life as a result while some science teachers can be the leading researchers in their fields yet leave us flat What is the recipe for this unique special teacher And why is it so hard to explain and describe The objective of this book is to

uncover these aspects of teaching that are so hard to measure and quantify This is achieved through interviewing people who are either current or retired teachers or who were positively affected by a teacher and also through case studies of exceptional teachers in order to quantify and explain the exact traits and personality quirks of these exceptional people The contribution to the field of education this book hopes to achieve is the examination of the question why do some teachers have that X factor what exactly is it and how can we all have it Teaching Memoir Writing Perdita Finn,1999-12 Finn a writing teacher shares her expertise by encouraging students to create thoughtful artistic and interesting writing about themselves Lesson topics include generating thoughtful questions making connections developing metaphors and searching for themes in life Illustrations When Text Meets Text Barbara King-Shaver,2005 It s not enough for students to just understand a text In order for students to achieve academic excellence and succeed in today s society they must also be able to exercise critical awareness over what they read But how do you cultivate comprehension and help kids sharpen their analytical skills The answer writes Barbara King Shaver lies in thinking outside the book by studying texts in tandem In When Text Meets Text King Shaver lays out rationales and strategies for using an approach called intertextuality where a reading of carefully paired texts increases students grasp of content while honing their command of crucial critical tools Making connections among texts students delve deeper into each by observing similarities and differences in literary characteristics such as syntax plot character and structure propelling them toward greater meaning making King Shaver presents the research supporting intertextual instruction techniques for adding it to your curriculum suggestions for a wide array of books to teach together and best of all practical ideas for units of study covering key aspects of teaching literature including genre theme author archetypes Find an exciting new way to build literature connections in your classroom as you extend the comprehension abilities of your students Read Barbara King Shaver s When Text Meets Text and find out why two texts are better than one
