Richardson,2013-11 By no means do I think that the mythos I ve developed is the only one for you There are many works that get you off commonly accepted paradigms and from these sources you may be able to take a little here and a little there in the search for what personally makes sense Many of the books and films I deem valuable are cited within this text But as to why I believe the information encased herein to be important I must say that what I have seen for explanations of reality outside of my own belief structure still leaves many areas unexamined so I included a number of sources perhaps in total they will amount to something greater than their individual parts Also in many correct and important theories the ideas I have come in contact with do not go far enough I see doors that I want to make ajar windows that I seek to get unstuck like a whale I always want to dive deeper And so my promise to you as the reader is that you ll have an opportunity to see subjects that you may have thought you knew portrayed in a different light interpretations coming from a different angle and ideas new to you **Claude Steiner, Emotional Activist** Keith Tudor,2020-02-20 This book describes the work and life of Claude
