The Power to Learn John M. Jenkins,James W. Keefe,2022-07-26 The Power to Learn The Benefits and the Promise of Personalized Instruction advances the notion that personalized instruction is the direction that schools must take if all students are expected to succeed with

difficult learning challenges Based on the premise that all students are capable this book offers practical information so that schools can be designed or redesigned to meet individual students where they are academically and to challenge them toward deeper learning Unlocking their capability is best accomplished by implementing a process labeled DPIE diagnosis prescription implementation and evaluation Examples dating back to the early 20th century are described that show the idea is derived from historical antecedents and twenty two research based strategies and tactics are offered Also included are five exemplary schools from preschool to high school *Tales Out of the School Library* Gail Bush Ph.D.,Jami Biles

Jones,2009-12-23 This groundbreaking book about developing the professional dispositions of school librarians uses three fictionalized librarians to serve as authentic models addressing familiar topics and situations *Tales Out of the School Library* Developing Professional Dispositions is a book that empowers anyone working in the school library to redefine their practice to meet the needs of young learners today It covers familiar everyday topics of the most concern to practitioners assessment literacy and reading diversity intellectual freedom communication collaboration and more But it is the approach that makes this book unique Each chapter of *Tales Out of the School Library* begins with a story from one of three fictional yet recognizably authentic library media specialists composites of real professionals each with distinctive personalities strengths and challenges These tales of elementary middle and high school librarians play out over the course of a school year and serve as the focal point for discussions of essential aspects of teaching communication and leadership Follow up questions an annotated bibliography connections to AASL s Standards for the 21st Century Learner and discussion questions further add to the value of this innovative volume *Changing the School Learning Environment* Jack Rimmel Frymier,Ronald

Joekel,2004 The No Child Left Behind Legislation by the federal government led to another round of emphasis on public schools resulting in a focus on school renewal or as often termed school reform The National Association of Secondary School Principals in the 1960s initiated a concept for school renewal called The Model Schools Project 1969 1974 The MSP was the culmination of much of the seminal thinking on school renewal of that era The project was directed by Dr J Lloyd Trump NASSP secretary for research and development and Dr William D Georgiades professor of Education at the University of Southern California After the MSP formally ended Georgiades continued to provide leadership for school renewal as president of a follow up consortium of schools and districts the Learning Environments Consortium International In *Changing the School Learning Environment* Jack Frymier and Ronald Joekel take a look at the key concepts of the Model Schools Project and what has transpired during the past 30 plus years Has it survived as initially conceived evolved into something meaningful for contemporary schools or failed as so many other innovations have done A survey of best educational practices stemming from the Model Schools Project that promote school renewal and how they are being utilized today are also presented and discussed Should appeal to educators and secondary school administrators **The Red Pencil** Theodore R. Sizer,2008-10-01 This engaging and important book is a critique of American education wrapped in a memoir Drawing on his

fifty years as teacher principal researcher professor and dean Theodore R Sizer identifies three crucial areas in which policy discussion about public education has been dangerously silent He argues that we must break that silence and rethink how to educate our youth Sizer discusses our failure to differentiate between teaching and learning noting that formal schooling must adapt to and confront the powerful influences found outside traditional classrooms He examines the practical as well as philosophical necessity for sharing policy making authority among families schools and centralized governments And he denounces our fetish with order our belief that the familiar routines that have existed for generations are the only way to bring learning to children Sizer provides alternatives to these failed routines guidelines for creating a new educational system that would among other things break with wasteful traditional practice utilize agencies and arrangements beyond the school building and design each child s educational program around his or her particular needs and potential Safe to be Smart Anne Wheelock,1998 **Science Teaching/science Learning** Elnora S. Harcombe,2001-01-01 Science Teaching Science Learning based on a model professional development program gives powerful proof that urban teachers can ignite curiosity and promote deep understanding in children when provided with the necessary intellectual infrastructure including a complex balance of increased science knowledge a safe environment for professional experimentation and a long term interaction with colleagues The ensuing invigoration and renewed dedication of program participants belies the inevitability of the projected national science teacher shortage Harcombe breaks new ground demonstrating that when professional teacher development is based on constructivist learning theory and framed in the knowledge domain of the sciences it empowers teachers to dramatically change what they know how they teach and what their students learn
