Hedren, 2012-09-04 Between 1876 and 1877 the U S Army battled Lakota Sioux and Northern Cheyenne Indians in a series of vicious conflicts known today as the Great Sioux War After the defeat of Custer at the Little Big Horn in June 1876 the army responded to its stunning loss by pouring fresh troops and resources into the war effort In the end the U S Army prevailed but at a significant cost In this unique contribution to American western history Paul L Hedren examines the war's effects on the culture environment and geography of the northern Great Plains their Native inhabitants and the Anglo American invaders As Hedren explains U S military control of the northern plains following the Great Sioux War permitted the Northern Pacific Railroad to extend westward from the Missouri River The new transcontinental line brought hide hunters who targeted the great northern buffalo herds and ultimately destroyed them A de buffaloed prairie lured cattlemen who in turn spawned their own culture Through forced surrender of their lands and lifeways Lakotas and Northern Cheyennes now experienced even more stress and calamity than they had endured during the war itself The victors meanwhile faced a different set of challenges among them providing security for the railroad crews hide hunters and cattlemen Hedren is the first scholar to examine the events of 1876-77 and their aftermath as a whole taking into account relationships among military leaders the building of forts and the army's efforts to memorialize the war and its victims Woven into his narrative are the voices of those who witnessed such events as the burial of Custer the laying of railroad track or the sudden surround of a buffalo herd Their personal testimonies lend both vibrancy and pathos to this story of irreversible change in Sioux Country **Anzac Battlefield** Antonio
