**Rentier Islamism** Courtney Jean Freer, 2018 While scholars have long looked at the role of political Islam in the Middle East it has been assumed that domestic politics in the wealthy monarchical states of the Arabian Gulf so called rentier states where taxes are very low and oil wealth subsidizes the needs of citizens are largely unaffected by such movements Using contemporary history and original empirical research Courtney Freer updates traditional rentier state theory and argues that political Islam serves as a prominent voice and tool to promote more strictly political and often populist or reformist views supported by many Gulf citizens

*Norms in Conflict* Anchalee Rüland, 2022-06-14 The people of Myanmar were struck by three major human rights disasters during the country's period of democratization from 2003 to 2012 the 2007 Saffron Revolution the aftermath of Cyclone Nargis in 2008 and the 2012 Rakhine riots which would evolve into the ongoing Rohingya crisis These events saw Myanmar's government categorically labeled as an offender of human rights and three powerful Southeast Asian member states Indonesia Thailand and Malaysia responded to the violations in very different ways In each case their responses to the crises were explicitly shaped by norm conflict which may be understood as a tension between international and domestic norms Their reactions were compelled by a need to address conflicting domestic and international expectations for norm compliance regarding human rights protection and non interference in internal affairs In *Norms in Conflict* Southeast Asia's Response to Human Rights Violations in Myanmar Anchalee Rüland makes sense of state action that occurs when a governing body is faced with a circumstance that is at once in line with and contrary to its own governing policies She defines five different types of response strategies to situations of norm conflict and examines the enabling factors that lead to each strategy Domestic norms are known to evolve as a country's values change over time yet Rüland argues that the old and new norms may also coexist knowledge of the underlying political context is crucial for those seeking a solid understanding of state behavior *Norms in Conflict* challenges the conventional understanding of the logic of consequences in determining state behavior advancing constructivist theory and establishing a provocative new conversation in international relations discourse

*Kurds and Yazidis in the Middle East* Günes Murat Tezcür, 2021-01-28 The diversity of Kurdish communities across the Middle East is now recognized as central to understanding both the challenges and opportunities for their representation and politics Yet little scholarship has focused on the complexities within these different groups and the range of their experiences This book diversifies the literature on Kurdish Studies by offering close analyses of subjects which have not been adequately researched and in particular by highlighting the Kurds relationship to the Yazidis Case studies include the political ideas of Ehmede Xani the father of Kurdish nationalism Kurdish refugees in camps in Iraq the perception of the Kurds by Armenians in the late Ottoman Empire and the Turks in modern Western Turkey and the important connections and shared heritage of the Kurds and the Yazidis especially in the aftermath of the 2014 ISIS attacks The book comprises the leading voices in Kurdish Studies and combines in depth empirical work with theoretical and

conceptual discussions to take the debates in the field in new directions The study is divided into three thematic sections to capture new insights into the heterogeneous aspects of Kurdish history and identity In doing so contributors explain why we need to pay close attention to the shifting identities and the diversity of the Kurds and what implications this has for Middle East Studies and Minority Studies more generally

*The Responsibility to Prevent* Serena K. Sharma, Jennifer Mary Welsh, 2015 Examines ways to operationalize the responsibility to prevent genocide crimes against humanity war crimes and ethnic cleansing Develops a strategic framework to identify the appropriate scope and substance of preventive dimensions and the tools that can be used to prevent escalation such as sanctions mediation international criminal justice and military intervention

**Britain's Secret Wars** T. J. Coles, 2018-12-03 In a devastating analysis T J Coles reveals the true extent of Britain's covert foreign policy that supports war conflict and oppression around the world Unbeknownst to the broad population the Shadow State sponsors a new world order that allies Britain with America's quest for global power what the Pentagon calls Full Spectrum Dominance Coles documents how British operatives have interfered in Syria Libya Iraq Iran and Yemen with the aim of deposing unwanted regimes In doing so they have helped create extensive terrorist networks across the Middle East reviving previously failing Jihadist groups such as ISIL which has now transformed into an international terror franchise In addition to waging clandestine wars in the Middle East the secret services have used the military to run drugs by proxy in Colombia train death squads in Bangladesh and support instability in Ukraine where NATO's strategic encroachment on Russia is drawing the world closer to terminal nuclear confrontation Coles unearths Britain's involvement in the recent ethnic cleansing of Tamil civilians by the Sri Lankan government the invasion of Somalia by Somali and Ethiopian warlords and Indonesia's atrocities in Papua He also exposes the extensive use of drones for murder and intimidation across the Middle East and elsewhere Britain's Secret Wars is essential reading for anyone who wants to dig beneath the surface of current events This expanded edition features a new Preface

Hubris, Self-Interest, and America's Failed War in Afghanistan Thomas P. Cavanna, 2015-07-22 This book describes the conduct of the US led post 9 11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US dependent on Afghanistan's warlords which compromised the country's stability and tarnished its new political system The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who aware of America's logistical dependency on Islamabad supported the Afghan insurgents their historical proxies more and more openly The extension of the war also contributed to radicalize segments of the Afghan and

Pakistani populations destabilizing the area further In the meantime the need to justify the extension of its military presence influenced the US led coalition into proclaiming its determination to democratize and reconstruct Afghanistan While highly opportunistic the emergence of these policies proved both self defeating and unsustainable due to an inescapable collision between the US led coalition s inherent self interest hubris limited knowledge limited attention span and limited resources and on the other hand Afghanistan s inherent complexity As the critical contradictions at the very heart of the campaign increased with the extension of the latter s duration scale and cost America s leaders entrapped in path dependence lost their strategic flexibility Despite debates on troops resource allocation and more sophisticated doctrines they repeated the same structural mistakes over and over again The strategic overreach became self sustaining until its costs became intolerable leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough

**Rethinking the Responsibility to Protect** Alexander Reichwein, Mischa Hansel, 2023-05-31 This edited volume critically examines the Responsibility to Protect R2P as a guiding norm in international politics After NATO s intervention in Libya against the backdrop of civil wars in Syria and Yemen and because of the cynical support for R2P by states such as Saudi Arabia this norm is the subject of heavy criticism It seems that the R2P is just political rhetoric an instrument exploited by the powerful states Hence the R2P is being challenged At the same time however institutional settings normative discourses and contestation practices are making it more robust New understandings of responsibility and the politics of protection are creating new normative spaces patterns of legitimacy and norm entrepreneurs thereby reinforcing the R2P This book s goals are to discuss the R2P s roots institutional framework and evolution to reveal its shortcomings and pitfalls and to explore how it is exploited by certain states Further it elaborates on the R2P s strength as a norm Accordingly the contributions presented here discuss various ways in which the R2P is being challenged or confirmed or both at once As the authors demonstrate these developments concern not only diplomatic communication and political practices within international institutions but also to normative discourses Furthermore the book includes chapters that reevaluate the R2P from a normative standpoint e g by proposing cosmopolitan standards as a guide for states external

behavior Other contributors reassess the historical evidence from U N negotiations on the R2P principle and the productive or restrictive role of institutions Discussing new issues relating to the R2P such as global and regional power shifts or foreign policy as well as the phenomenon of authoritarian interventionism under the R2P umbrella this book will appeal to all IR scholars and students interested in humanitarianism norms and power By analyzing the status quo of the R2P it enriches and broadens the debate on what the R2P currently is and what it ought to be      **Liminal Minorities** Günes Murat

Tezcür,2024-04-15 Winner of the Religion and International Relations Book Award of the Religion and International Relations Section of the International Studies Association Winner of the Hubert Morken Award of the Religion and Politics Section of the American Political Science Association Liminal Minorities addresses the question of why some religious minorities provoke the ire of majoritarian groups and become targets of organized violence even though they lack significant power and pose no political threat G ne Murat Tezc r argues that these faith groups are stigmatized across generations as they lack theological recognition and social acceptance from the dominant religious group Religious justifications of violence have a strong mobilization power when directed against liminal minorities which makes these groups particularly vulnerable to mass violence during periods of political change Offering the first comparative historical study of mass atrocities against religious minorities in Muslim societies Tezc r focuses on two case studies the Islamic State s genocidal attacks against the Yezidis in northern Iraq in the 2010s and massacres of Alevis in Turkey in the 1970s and 1990s while also addressing discrimination and violence against followers of the Bah faith in Iran and Ahmadis in Pakistan and Indonesia Analyzing a variety of original sources including interviews with survivors and court documents Tezc r reveals how religious stigmatization and political resentment motivate ordinary people to participate in mass atrocities      *Comparative Media Law and Ethics* Tim

studying war from the borders of the discipline This book contains a selection of criminological authors who have been authoritatively engaged in studying criminology and war Following an introduction that places war within criminology the collection is arranged across three themed sections including Theorising War Law and Crime Linking War and Criminal Justice and War Sexual Violence and Visual Trauma Each chapter takes substantive topics within criminology and victimology i e corporate crime history imprisonment criminal justice sexual violence trauma security and crime control to name but a few and invites the reader to engage in critical discussions relating to wars both past and present The chapters within this collection are theoretically rich empirically diverse and come together to create the first authoritative published collection of original essays specifically dedicated to criminology and war Students and researchers alike interested in war critical criminology and victimology will find this an accessible study companion that centres the disparate criminological attention to war into one comprehensive collection

**Social Work and Human Rights** Elisabeth Reichert, 2011 Social Work and Human Rights has become a standard text highlighting the role of social work in protecting the rights of vulnerable populations Through rigorous analysis classroom exercises and a frank discussion of the implications for practice both within and outside of the United States the volume effectively acquaints readers with the political economic and social dimensions of rights issues and the documents that guarantee them New material covers international events such as the United Nations Millennium Declaration 2000 and its effort to reduce the poverty and suffering of billions worldwide The volume now emphasizes cultural rights and includes a probing lesson in cultural relativism It turns a critical eye toward the failure in the United States to address social welfare issues and its reluctance to rectify policies favoring one group over another Praise for the first edition A human rights compass a preliminary guide for the translation of human rights for social workers It is to be welcomed European Journal of Social Work Foundation documents provide an essential tool for understanding the issues and applying the understanding to concrete social policy advocacy and action Canadian Association of Social Workers Bulletin This is a text which is overdue for social work students and faculty Rosemary Link coauthor of Human Behavior in a Just World Reaching for Common Ground Reichert makes human rights concepts come alive Practice case examples and human rights analysis of the National Association of Social Workers Code of Ethics are particularly valuable in orienting the reader to the domestic practice applications of the global human rights movement Lynne M Healy author of International Social Work Professional Action in an Interdependent World

**Nationalism, Law and Statelessness** John R. Campbell, 2013-07-18 In 1998 a bloody war erupted in The Horn of Africa between Ethiopia and Eritrea During the war Ethiopia arrested and expelled 70 000 of its citizens and stripped another 50 000 plus of their citizenship on the basis of their presumed ethnicity Nationalism Law and Statelessness Grand Illusions in the Horn of Africa examines the events which led up to the war documents the expulsions and denationalisations that took place and follows the flight of these stateless Ethiopians out of the Horn into Europe The core issue examined is the link between sovereignty and statelessness as this

plays out in The Horn of Africa and in the West The book provides a valuable insight into how nations create and perpetuate statelessness the failure of law both national and international to protect and address the plight of stateless persons and the illusory nature of nationalism citizenship and human rights in the modern age The study is one of a very few which examines the problem of statelessness through the accounts of stateless persons themselves This book will be of great interest to students and researchers in anthropology law politics African studies and refugee studies as well as professionals and all those interested in stateless persons in the West including Eritreans who continue to be denied basic rights The United States and Cuba Marifeli Pérez-Stable,2011-01-25 This book systematically covers the background of U S Cuban relations after the Cold War and tensions into the twenty first century The author explores the future of this strained relationship under Obama s presidency and in a post Castro Cuba **Child to Soldier** Opiyo Oloya,2013-01-01 A collection of stories and interviews from former child soldiers of the Lord s Resistance Army **Cuba** Mark P. Ghazal,2020-11-30 The Oxford Handbook of Contemporary Middle Eastern and North African History critically examines the defining processes and structures of historical developments in North Africa and the Middle East over the past two centuries The Handbook pays particular attention to countries that have leapt out of the political shadows of dominant and better studied neighbours in the course of the unfolding uprisings in the Middle East and North Africa These dramatic and interconnected developments have exposed the dearth of informative analysis available in surveys and textbooks particularly on Tunisia Libya Yemen Bahrain and Syria
