Frederick E. Grine,John G Fleagle,Richard E. Leakey,2009-05-24 There are some issues in human paleontology that seem to be timeless Most deal with the origin and early evolution of our own genus something about which we should care Some of these issues pertain to taxonomy and systematics How many species of Homo were there in the Pliocene and Pleistocene How do we identify the earliest members the genus Homo If there is more than one Plio Pleistocene species how do they relate to one another and where and when did they evolve Other issues relate to questions about body size proportions and the functional adaptations of the locomotor skeleton When did the human postcranial Bauplan evolve and for what reasons What behaviors and what behavioral limitations can be inferred from the postcranial bones that have been attributed to Homo habilis and Homo erectus Still other issues relate to growth development and life history strategies and the biological and archeological evidence for diet and behavior in early Homo It is often argued that dietary change played an important role in the origin and early evolution of our genus with stone tools opening up scavenging and hunting opportunities that would have added meat protein to the diet of Homo Still other issues relate to the environmental and climatic context in which this genus evolved **Viral Infections of Humans** Alfred Evans,2013-11-11 *Emerging Infectious Diseases* ,2009

Shangri-La 730's Last Flight Skot Keller, 2020-11-25 Shangri La730 s Last Flight By Skot Keller Shangri La730 s Last Flight iz inspired by Malaysia Flight 370 which went missing on March 8th 2014 it has never been found and remains a mystery az to what happened to it The people on the Malaysia plane are assumed to be dead and the people on Shangri La 730 do not come away mortally alive either Rest assured that there iz a happy ending for everyone When an Australian engineer has an idea that he sends out in a mass email about a theory that will lead to a scientific breakthrough it makes an alien race called the sigla nervous and they try to squash the idea by commandeering Shangri La flight 730 in flight There are humans extraterrestrials az well az angels all involved with what happens aboard the plane This iz importantly a Christian piece of fiction not factual or scripturally based Some questions that are explored are If there are intelligent extraterrestrials do they have a relation with GOD like humans have a relation with GOD and how are their spiritual beliefs related to mankind s Their GOD and the Christian GOD must be the same because the Creator created everything Other questions are considered e g What iz the purpose of life What iz eternal life without perfection and what iz perfection What happens to good people who have not accepted Jesus Yeshua as their Savior Lord and Master Do animals have souls Hopefully those who read Shangri La 730 s Last Flight will come away with an uplifting feeling that there iz a

perfect plan working its way out in its perfection and a hopeful belief that they can be reunited with all they love in GOD
